

1 UNITED STATES DISTRICT COURT

2 SOUTHERN DISTRICT OF OHIO

3 RONALD MELTON, et :

4 al., :

5 Plaintiffs, : Case No. C-1-01-528

6 vs :

7 BOARD OF COUNTY :

8 COMMISSIONERS OF :

9 HAMILTON COUNTY, :

10 OHIO, et al., :

11 Defendants. :

12 Deposition of JONATHAN TOBIAS, M.D., a
13 defendant herein, taken by the plaintiffs as
14 upon cross-examination, pursuant to the Federal
15 Rules of Civil Procedure and pursuant to Notice
16 of Deposition and agreement by counsel as to the
17 time and place and stipulations hereinafter set
18 forth, at the offices of Glenn Whitaker, Esq.,
19 Vorys, Sater, Seymour and Pease, LLP, Suite
20 2000, Atrium Two, 221 East Fourth Street,
21 Cincinnati, Ohio, at 9:00 a.m. on Friday, the
22 16th day of January 2004, before Valerie Jones
23 Conn, a Registered Professional Reporter and
24 Notary Public within and for the State of Ohio.

1 APPEARANCES

2 On behalf of Plaintiff:

3 MICHAEL GANSON, ESQ.
4 of
5 Michael B. Ganson Co., L.P.A.
6 36 East Seventh Street
7 Suite 1540
8 Cincinnati, Ohio 45202
9 and
10 DAVID KAPOR, ESQ.
11 of
12 1520 CBLD Center
13 36 East Seventh Street
14 Cincinnati, Ohio 45202

15 On behalf of Defendant, Dr. Parrott:

16 LARRY BARBIERE, ESQ.
17 MICHAEL MAUNDRELL, ESQ.
18 of
19 Schroeder Maundrell Barbieri
20 & Powers
21 11935 Mason Road, Suite 110
22 Cincinnati, Ohio 45202

23 On behalf of Defendant, Hamilton County:

24 LOUIS GILLIGAN, ESQ.
of
Keating Muething & Klekamp
1400 Provident Tower
One East Fourth Street
Cincinnati, Ohio 45202

On behalf of Defendant, Thomas Condon:

STEPHEN PATSFALL, ESQ.
of
Patsfall, Yeager & Pflum, LLC
One West Fourth Street
Suite 1800
Cincinnati, Ohio 45202

24

1 APPEARANCES

2 On behalf of Defendant, Jonathan Tobias:

3 GLENN WHITAKER, ESQ.

of

4 Vorys, Sater, Seymour and Pease

1 S T I P U L A T I O N S

2 It is stipulated by counsel for the respective
3 parties that the deposition of JONATHAN TOBIAS,
4 M.D., a defendant herein, may be taken at this
5 time by the defendant as upon cross-examination
6 and pursuant to the Federal Rules of Civil
7 Procedure and notice to take deposition, all
8 other legal formalities being waived by
9 agreement; that the deposition may be taken in
10 stenotype by the Notary Public Reporter and
11 transcribed by her out of the presence of the
12 witness; that the transcribed deposition was
13 submitted to the witness for examination and
14 signature and that signature may be affixed out
15 of the presence of the Notary Public-Court
16 Reporter.

1 MR. GILLIGAN: We had talked before
2 about stipulating in this case, if we all could
3 since counsel is all here, that the depositions
4 we've taken in the other action, the Chesher
5 case, would be applicable to this case so that
6 we wouldn't have to repeat all of the testimony,
7 and I'm certainly willing to stipulate and,
8 Mike, I'll turn it over to you.

9 MR. GANSON: That's an agreement
10 that was reached, that all depositions taken in
11 the other cases can be filed and used in this
12 case with respect to all purposes so that we
13 don't have to be repetitive to what's already
14 gone forth and take hours and hours and
15 repeating the same darn thing that was already
16 questioned. However, I would reserve the right,
17 of course, to inquire as to areas that may have
18 been covered but I need a little elucidation on
19 it.

20 MR. WHITAKER: Okay. I agree.

21 MR. GILLIGAN: I'm agreeable to
22 that.

23 MR. BARBIERE: I agree.

24 MR. PATSFALL: For Tom Condon,

1 Steve Patsfall. I'm agreeable with that.

2 MR. GILLIGAN: Okay.

3 JONATHAN TOBIAS, M.D.,
4 a witness herein, of lawful age, having been
5 first duly sworn, as hereinafter certified, was
6 examined and testified as follows:

7 CROSS-EXAMINATION

8 BY MR. GILLIGAN:

9 Q. Dr. Tobias, as you know, my name is
10 Lou Gilligan and I represent the Hamilton County
11 defendants in this litigation as well as in the
12 companion case, the Chesher litigation.

13 Let me, first of all, ask you
14 whether you've, at some time or another, had the
15 opportunity to read the deposition which you
16 gave in the case of Jacqueline Chesher versus
17 Tom Neyer, Jr., case number C-1-01-771?

18 A. Yes.

19 Q. Okay. And you heard, you were
20 sitting here when we just put on the stipulation
21 that with all of the discovery depositions
22 including yours that came from the Chesher case
23 we were going to make applicable to this case.
24 You heard that, Doctor?

1 A. Yes.

2 Q. My only question to you about the
3 deposition then, is there anything in that
4 deposition that you recall reading that you
5 believe is inaccurate?

6 A. No.

7 Q. Okay. All right. So you can
8 reaffirm that the testimony you gave there under
9 oath is the same testimony you would give here?

10 A. Yes.

11 Q. All right. Now maybe you could
12 just tell me since you gave your deposition -- I
13 might, just for the record, give the date --

14 MR. GANSON: There's two days.
15 Volume 1 was taken on May the 29th, 2003 and
16 Volume 2 was taken on June the 25th of 2003.
17 I'm aware of a third deposition but I believe at
18 that point in time it was pre-resolution of the
19 Court of Appeals decision. Therefore, most of
20 that would be not substantive in any way.

21 Q. I agree with that and that was --
22 basically you took the Fifth Amendment the first
23 time around?

24 A. Correct.

1 Q. Since that time what have you been
2 doing, just to kind of bring us up to speed on
3 your own personal life?

4 A. Well, in August I started back up
5 my residency and so I'm now a pathology resident
6 at University Hospital.

7 Q. Okay. And you're doing that full
8 time, I presume?

9 A. Yes.

10 Q. You're not working in any capacity
11 for the Hamilton County Coroner?

12 A. No.

13 Q. Are you still intending to follow
14 the path of that of a pathologist?

15 A. As a pathologist, yes. Not as a
16 forensic pathologist.

17 Q. Okay. I want to talk, first of
18 all, about the photo that you took of Mr.
19 Melton. Okay? And if I could just do a general
20 lead-in and you correct me if I misstate. I'm
21 not trying to -- I'm just trying to save a lot
22 of extra questioning.

23 As I recall when we took your
24 deposition that you testified that you,

1 yourself, took one photo. Correct?

2 A. Correct.

3 Q. All right. And, well, let me just
4 ask a couple direct questions. Do you remember
5 the time of day that you took the photo?

6 A. It was on my way home, so it was in
7 the evening.

8 Q. Okay. And could you give me your
9 best estimate of what time that would have been?

10 A. I don't remember the exact time.

11 Q. Okay. Like after 6:00 p.m.?

12 A. I think I testified to it in a
13 deposition previously. I just don't recall the
14 exact time. But somewhere -- I usually went
15 home around six or seven.

16 Q. All right. And the day that you
17 photoed Mr. -- took a photo of Mr. Melton that
18 was the same day he was killed in the industrial
19 accident, correct, sir?

20 A. Yeah.

21 Q. All right. And would you state
22 again for the record, first of all, where was
23 the photo taken?

24 A. It was taken in the cooler, I

1 believe.

2 Q. At the Hamilton County Morgue?

3 A. Yes.

4 Q. And as I understand it the body was
5 brought there from the accident scene?

6 A. Correct.

7 Q. Okay. And you had learned that a
8 person, turned out to be Mr. Melton, had been
9 killed in an industrial accident some hours
10 before you took the photo?

11 A. Yes.

12 Q. And how did you learn about that?

13 A. I was on the second floor of the
14 Coroner's Office, I was either in my office or
15 out in the common area, and the investigator
16 said -- or whoever was manning the phones got a
17 call that someone had been killed and it was
18 reported to the pathologist who was working -- I
19 think that was Pfalzgraf -- and they asked if I
20 wanted to go to the scene so that's how I knew.

21 Q. When you say they asked if I wanted
22 to go to the scene, who is "they"?

23 A. Well, I think Nancy was the
24 investigator and she -- I believe either she or

1 Dr. Pfalzgraf, one of them, asked if I wanted to
2 go.

3 Q. All right. And you declined?

4 A. Yeah. Normally the practice was
5 during the daytime if there was a scene that I
6 would be told about it and if there was nothing
7 going on I would go to the scene. But on this
8 day I was, if I remember correctly, I was just
9 kind of overwhelmed with work and needed to
10 catch up and I remember a storm coming and I was
11 thinking traffic would be bad and I just decided
12 not to go.

13 Q. Did an investigator from the
14 Hamilton County Coroner's Office go to the
15 scene?

16 A. I believe Nancy went to the scene.

17 Q. And Nancy's last name?

18 A. Woolum.

19 Q. Okay. And then is it your
20 understanding that Nancy took photos at the
21 accident scene?

22 A. I've seen photos from the scene and
23 they were in the file, the coroner's file, and I
24 assume those were Nancy's photos.

1 Q. Did you see photos taken of the
2 body of Mr. Melton during autopsy?

3 A. I don't recall if I saw those or
4 not.

5 Q. Okay. Do you know, from being
6 involved in this case, whether or not there were
7 autopsy photos taken of Mr. Melton?

8 A. Again, I would assume there were
9 because it was a traumatic case and there were
10 injuries to document. But I don't remember
11 seeing any at the moment.

12 Q. And the photos that were taken at
13 the accident site would have been photos taken
14 in the regular course of business of the
15 Hamilton County Coroner's Office?

16 A. Yes.

17 Q. Is there anything that you're aware
18 of that's out of the ordinary with reference to
19 taking those photos at the accident site?

20 A. No.

21 Q. If there were photos that were
22 taken during autopsy would they be photos that
23 were taken in the regular course of business of
24 the Coroner's Office?

1 A. Yes.

2 Q. And did you take any of those
3 photos either at the accident scene or during
4 autopsy?

5 A. I didn't take the photos during
6 autopsy or at the accident scene, no.

7 Q. Okay. Now the body arrived at the
8 Hamilton County Morgue some time prior to your
9 taking the photo which we estimate would be
10 somewhere around six p.m., correct?

11 A. Correct.

12 Q. Do you know how long before the
13 body -- strike that.

14 Do you know how long the body was
15 at the morgue before you took the photo?

16 A. I don't think very long.

17 Q. Your best estimate would be how
18 long, Doctor?

19 A. Maybe an hour.

20 Q. All right. And I would like you --
21 I know this is a little repetitious but that's
22 what we're going to focus on. Would you take me
23 in as much detail as you possibly can, I really
24 mean specific detail, of exactly what you did in

1 respect to taking the photo leading up to it?

2 So take me from the time you first got into the
3 cooler and tell me exactly what you did. Okay?

4 A. Okay. Well, again, this was three
5 years ago so -- but from my recollection on my
6 way out of the building I, because the case was
7 a trauma case and normally I did the autopsies
8 on kind of the, quote, interesting cases and
9 because forensic pathology, a big part of it is
10 trauma and so I thought I would be doing this
11 autopsy the next day, and so I wanted, because I
12 didn't go to the scene, I just wanted to see
13 what the body looked like before I went home.

14 And I had my camera with me and I
15 -- so on the way out I went into the cooler, I
16 remember one of the morgue attendants was there
17 and I asked him is the body here yet and he
18 said, yeah, it's in the cooler. And I went in
19 the cooler.

20 Q. Do you remember which attendant you
21 asked?

22 A. No.

23 Q. All right. Go ahead.

24 A. And I went into the cooler and I --

1 he said it was -- whoever the attendant was
2 said, the body is just inside the door there.
3 And I don't remember if the bag was zipped or
4 unzipped, but I opened the bag partially to
5 uncover the head and torso and saw, you know,
6 the injuries were tremendous injuries, very
7 severe, and I decided to take a photograph. And
8 I took one photograph and then realized it was
9 the end of my roll of film and -- and also I do
10 remember that I was going to develop the film in
11 the camera that night, at least that's what my
12 plan was to do. And then I zipped the bag up or
13 covered the body back up and went home.

14 Q. All right. I want to be very
15 detailed in respect to your actions. The body
16 would have been, would you call the apparatus a
17 gurney or whatever that they put the bodies on?

18 A. Yeah.

19 Q. A gurney?

20 A. Yeah.

21 Q. And the body was already in a body
22 bag?

23 A. Uh-huh.

24 Q. And the body was already zipped

1 up -- I mean, the bag was zipped up?

2 A. Well, I don't remember if it was
3 zipped up or it was just folded over.

4 Q. All right. In any event, you
5 couldn't see the body when you first approached
6 it? You couldn't see inside?

7 A. Right. You couldn't see the face.

8 Q. All right. So can you tell me,
9 just describe your actions as best you recall as
10 to how you made the body viewable. What exactly
11 did you do?

12 A. Well, I think I already said either
13 I flipped the bag up or unzipped it and flipped
14 the bag up.

15 Q. All right. And whichever you did
16 how much of the body was revealed?

17 A. The head and upper torso, I
18 believe.

19 Q. Okay. Did you touch the body in
20 any way?

21 A. No.

22 Q. Did you ever touch the Melton body
23 at any time in your life?

24 A. No.

1 Q. All right. So you simply made that
2 part of the body that you just described
3 visible, you took a camera and you took a photo?

4 A. Correct.

5 Q. Did you use any lighting other than
6 the flash that was provided by the camera? I
7 presume it had a flash?

8 A. I didn't use any other lighting
9 other than --

10 Q. Did you move the gurney in any way
11 to get under a light or anything?

12 A. No. No.

13 Q. Dr. Tobias, was it within the scope
14 of your duties as a fellow with the Hamilton
15 County Coroner's Office when you took that
16 photo? Was it within the scope of your duties?

17 A. Yes.

18 Q. Why do you say it was within the
19 scope of your duties?

20 A. Because I -- that was part of my
21 job was to examine the body, take photographs of
22 bodies and to -- actually part of my duties I
23 was told was to develop a photo collection of
24 injuries.

1 Q. Okay. So then after you took the
2 photo did you then close the bag up in some
3 fashion, body bag?

4 A. Yeah. Like I said, either I put it
5 back the way it was, however it was.

6 Q. And you left the gurney in the same
7 position it was originally?

8 A. Yeah.

9 Q. Didn't touch that, didn't move
10 that?

11 A. No.

12 Q. All right. And then did you, after
13 you left the cooler, did you go home then? Did
14 you go to Mr. Condon's studio? What did you do?

15 A. As far as I recall I went home.

16 Q. Okay. Can you tell me now the
17 circumstances -- I know you said this in your
18 prior deposition -- but the circumstances of
19 surrounding what you did with the film that you
20 now had taken one picture of the Melton body?

21 A. Well, I developed the film myself.

22 Q. Where did you do that?

23 A. At my home.

24 Q. When did you do that?

1 A. It was either that evening, like I
2 planned, or later on. I don't recall.

3 Q. If you say if it was later on how
4 much later on? We talking days, weeks, months?

5 A. I don't know. I mean, it couldn't
6 have been that long.

7 Q. Right. Okay. But you don't know
8 exactly how long?

9 A. No.

10 Q. All right. So tell me, then, how
11 -- strike that. You developed the film --

12 A. Yes.

13 Q. -- yourself?

14 A. Yes.

15 Q. And you did that at your home?

16 A. Yes.

17 Q. Okay. And what equipment did you
18 use to do that?

19 A. Just a little plastic canister that
20 is light proof and that you can pour chemicals
21 in and out of without, like, leaking in.

22 Q. Was there a whole roll of film that
23 you were processing at the same time or just
24 this one?

1 A. Well, yeah. Well, it was all one
2 roll of film. I mean, I could only do one at a
3 time.

4 Q. Okay. Did you do other photos at
5 the same time you did the Melton photo?

6 A. Well, like I said, there was only
7 one photo of Melton on the film. So there were
8 other photos on the film.

9 Q. I understand that.

10 A. I don't remember what those photos
11 were of.

12 Q. Do you remember whether you
13 processed those photos at the same time you did
14 the Melton photo?

15 A. Well, I think there's a
16 misunderstanding here because when you -- when
17 I'm referring to processing it's just taking,
18 like, that roll of film and camera and
19 developing it into negatives. That's all I'm
20 talking about.

21 Q. Okay. So what would have been
22 developed into a negative would have been any --

23 A. All the pictures on that roll of
24 film.

1 Q. Okay. But you don't recall what
2 the other photos would have been of --

3 A. I don't remember.

4 Q. -- whether they were bodies, photos
5 of your children or whatever they might have
6 been?

7 A. I don't remember.

8 Q. All right. Then with reference to
9 -- after your processing with reference to the
10 Melton, became the Melton photo it was now in
11 the form of a negative; is that correct?

12 A. Correct.

13 Q. So would it be fair for me to
14 describe this as started out as being film, took
15 a photo and you transferred it, if you will,
16 from being film into the creation of a negative?

17 A. Yeah. The film, all it is is -- or
18 negatives are just developed film so it's the
19 same piece of plastic.

20 Q. It just takes a different form of
21 the same piece?

22 A. Yeah, I guess so.

23 Q. And I may not be, you know, I'm not
24 a film expert but that -- my common parlance of,

1 you know, we say that if I go out and take a
2 film I put film in the camera then take a photo
3 but I send it to processing I get back photos
4 along with the negatives. But at this point you
5 have a negative but not what we would know as a
6 finished photo, correct?

7 A. Correct.

8 Q. All right. So then what did you do
9 with that negative of the Melton body after you
10 processed it into a negative?

11 A. At some point I took it to Mr.
12 Condon's studio and made prints or a print. I
13 don't remember.

14 Q. And do you recall the date?

15 A. No.

16 Q. Okay. Can you approximate it at
17 all?

18 A. Not at the moment.

19 Q. Okay. You're aware that the
20 police, I guess it was the Cincinnati Police,
21 went to Condon's studio at some point, they had
22 a search warrant, I guess, and they went in and
23 they found some of these photos. You know that?

24 A. Yeah.

1 Q. Can you estimate how long the
2 photos might have been in Condon's studio before
3 the police did their search and found them?

4 A. I would only be guessing.

5 Q. What's your best estimate? It's
6 not critical, I want to get some timeline idea.
7 I mean, would it have been like as a matter of
8 hours or a day or something more than that?

9 A. More than that. A week or even
10 longer. I just -- I don't remember at all.

11 Q. All right. So now I want to place
12 you at Condon's. You went to Condon's studio
13 with the negative, correct?

14 A. (Nodding affirmatively.)

15 Q. Yes?

16 A. Yeah.

17 Q. And you don't remember what day it
18 was?

19 A. Correct.

20 Q. Was it in the evening or was it
21 like a weekend, during the day or what?

22 A. Again, I don't remember. It would
23 either be in the evening or on a weekend.

24 Q. Okay. Tell me what you did with

1 reference to the Melton negative at Condon's
2 studio.

3 A. He had all the equipment to develop
4 the negative into a paper print and so I used
5 his equipment to develop the negative into a
6 print.

7 Q. Okay. Was Condon present when you
8 did this?

9 A. He was present in his studio, yes.

10 Q. Okay. Did Condon play any part
11 whatever in assisting you to make prints, photo
12 prints out of the negative?

13 A. I think he helped me with the
14 exposure and showing me how to -- I was still
15 learning to use his equipment. He showed me the
16 technical aspects of using his equipment.

17 Q. That day or had he done that on a
18 prior occasion?

19 A. You know, I don't know if that was
20 the first time or -- actually, no, I do believe
21 at a prior occasion he had showed me his
22 equipment. But, again, it was kind of
23 complicated and I didn't -- I needed some
24 assistance just to -- how to turn things on.

1 Q. I would like you to give me your
2 best description you can give me of exactly how
3 you went about making a print or prints of the
4 Melton negative starting with what equipment you
5 used and how you did it, the best of your
6 recollection.

7 A. Well, there's, you know, there's
8 this thing called an enlarger and you take the
9 negative and put it in a special carrier, I
10 think it's called. That goes into the enlarger
11 and the enlarger shines, projects the image on
12 to a board and paper goes on the board and
13 there's -- wanted to determine the correct
14 exposure for the -- that negative and the paper.

15 So if I remember correctly what you
16 do is you set the timer for, say, like 60
17 seconds and then you take a piece of paper and
18 you move it in steps every 10 seconds down the
19 piece of -- like an opaque piece of paper. So
20 you move it in steps every 10 seconds along the
21 photographic piece of paper. And then you
22 develop it in these three sets of chemicals
23 there. You go through the process and then one
24 can look at that print with the strips and see

1 which strip corresponds to the best exposure if
2 it's not too light or too dark. And then you
3 can put a new piece of paper down and just set
4 your timer for that period of time. And after
5 that you develop it again through the chemicals.

6 Q. And when you develop it again
7 through the chemicals how do you do that?

8 A. Well, again, there are three
9 chemicals. I think it was a developer, a stop
10 bath and a fixative.

11 Q. Do you put these chemicals on the
12 face of the paper that you're going to make the
13 photo?

14 A. No. They're in trays.

15 Q. Just like you see on TV, run them
16 through a tray?

17 A. Yeah.

18 Q. And in that tray are these
19 chemicals?

20 A. Yeah.

21 Q. Okay. Are there three trays of
22 chemicals?

23 A. Yeah.

24 Q. Is that what you did here?

1 A. Yeah.

2 Q. Okay. And what do you call the
3 finished product then after you go through the
4 three trays? Are you finished with the photo
5 after it goes through the tree trays?

6 A. Well, then there's this washing
7 process.

8 Q. Tell me about that. What does that
9 involve?

10 A. It involves trying to wash out all
11 these chemicals.

12 Q. From the --

13 A. From the paper. So you just, I
14 guess -- I don't know the details but been told
15 that the print will degrade if they still have
16 these chemicals in them over time so you wash
17 out the chemicals.

18 Q. How do you do that? You put it in
19 a tray filled with liquid or hold it under a
20 faucet?

21 A. Actually he had a water bath, it
22 was actually a continuously running -- it was
23 like basically a tray with continuously
24 circulating water.

1 Q. Okay.

2 A. And you wash it in that.

3 Q. All right. Did you do that?

4 A. Yes.

5 Q. Okay. And then what? Do you hang
6 it to dry?

7 A. Then it has to dry.

8 Q. Do you do that by hanging it or to
9 dry it where do you put it?

10 A. I don't remember exactly if we hung
11 it or if it was on -- I think you had these
12 screens, kind of like window screens that -- on
13 frames and pictures were laid on those to dry.

14 Q. All right. And then what?

15 A. And then are you talking about --

16 Q. The Melton photo. Did you make a
17 photo?

18 A. Yes. I made I don't remember how
19 many photos.

20 Q. Using the same process?

21 A. Yeah.

22 Q. All right. Can you estimate
23 approximately how many photos you made in this
24 manner?

1 A. It would be on the order of less
2 than five.

3 Q. All right. And, again, just to
4 make sure we're correct and I'm using the right
5 terminology, the photos that you made, or the
6 copies, if you will, of photographs or the
7 photographs you made were all of the same thing,
8 the same scene? There was only one shot taken
9 originally, correct?

10 A. Correct. I only --

11 Q. It's all copies of the same thing
12 but in various states of development, or how
13 would you articulate that?

14 A. Well, the only difference is with
15 the enlarger and the negatives you can make
16 pictures that look different just because
17 there's different parts of the scene. Like --

18 Q. More of the upper part as opposed
19 to the lower?

20 A. Yeah. Like, you know, if you have
21 a photo with, like, you and someone else and
22 there's a big space next to it you can put that
23 negative in an enlarger and develop it yourself
24 so you focus and just print that part of the

1 negative.

2 Q. Okay. Did you do that in this
3 case?

4 A. I don't remember.

5 Q. But as far as the original picture,
6 if you will, there was only one?

7 A. Correct.

8 Q. Okay. So did you -- so we're on
9 the same wave length terminology-wise what do we
10 call the finished product? We call them photos
11 or what do you call them at that point after
12 they've gone through the process?

13 A. I would refer to them as a print.

14 Q. All right. So we're on the same
15 wave length. Is your estimate that you took
16 more than one but not more than five?

17 A. Well, I can't even say more than
18 one. I just know -- you know, I can't give an
19 exact number.

20 Q. Do you think you took more than one
21 print --

22 A. I very well may have.

23 Q. -- or made more than one print?

24 A. I may have.

1 Q. So as I understand your testimony
2 you don't know whether you did but you may have?

3 A. Correct.

4 Q. I take it your best recollection is
5 that you may have done more than one?

6 A. That's -- yeah, but, again, would
7 have been less than five because I just -- I
8 wouldn't have done that many.

9 MR. GANSON: I'm sorry. I didn't
10 hear the last part of your answer.

11 A. I said it would have been less than
12 five because I don't -- I couldn't think of a
13 reason to develop more at the moment.

14 Q. What did you do then with the
15 developed prints?

16 A. Well, they needed to dry at his
17 studio and that takes time. So I left them at
18 his studio.

19 Q. Okay. If I understand it, then,
20 correctly whatever number of prints you made
21 they were left at Condon's studio?

22 A. Correct.

23 Q. Probably on the screen setup that
24 you described?

1 A. Yeah. And they also needed to go
2 through one more process.

3 Q. Did you ever put them through the
4 one more process?

5 A. I don't believe so, no.

6 Q. What's the one more process they
7 had to go through? Is that after drying?

8 A. Yeah, after drying. It's called a
9 toning process.

10 Q. Toning?

11 A. Yeah. And --

12 Q. Did you ever put those prints
13 through the toning process?

14 A. I don't remember if I did or
15 didn't. I don't think I did but --

16 Q. Did you ever make any other prints
17 of this photo at another time?

18 A. No. Just that one time.

19 Q. When you left the studio that day,
20 whatever it was, the afternoon or evening, did
21 you take any prints with you?

22 A. No.

23 Q. Did you take the negatives with you
24 or the negative of the Melton photo?

1 A. I don't remember.

2 Q. Did you ever regain custody, if you
3 will, of the prints of the Melton photo at any
4 time?

5 A. No. I did get the negative back
6 but I did not get the photos back.

7 Q. When you say you got the negative
8 back had you left the negative at the studio?

9 A. Well, again, I don't remember if I
10 took it home right afterwards or if it was left
11 there. I just don't remember.

12 Q. But you, at the time the police did
13 their search and seizure in this case, had you
14 already regained possession of the negative?

15 A. Yes.

16 Q. Had you ever, at the time the
17 search and seizure took place, obtained a copy
18 of the print?

19 A. No.

20 Q. Of any of the prints?

21 A. No.

22 Q. Okay. Had you ever -- strike that.
23 You've seen the prints of the Melton photo you
24 took, right?

1 A. You know, from my deposition I
2 remember seeing some prints but I couldn't, you
3 know, I just -- you know, I don't really recall
4 the prints.

5 Q. Here's my question. At some point
6 in time, and I'm not being exactly time specific
7 as much as you've seen some -- back up. Let me
8 start the question over.

9 Since you left Condon's studio on
10 the day that you did the processing of the photo
11 and made the prints did you ever see those
12 prints again at any time?

13 A. You know, I believe so. I mean, I
14 believe they were involved in this case.

15 Q. Right. And they were also a part
16 of the criminal trial that ensued that you were
17 a part of, correct?

18 A. Correct.

19 Q. In conjunction with the criminal
20 trial did you ever see any of the prints of the
21 Melton body?

22 A. Yeah, I saw prints of the Melton
23 body.

24 Q. What I want to know, then, when you

1 saw the prints were those prints such that
2 they -- this final step in the development
3 process, I think you called it the toning, had
4 that been done?

5 A. You know, I don't remember.

6 Q. Go ahead. I'm sorry. I don't want
7 to cut you off.

8 A. The reason I don't remember is I do
9 remember, my previous deposition, seeing some of
10 the prints with the Melton photo that had the
11 brownish discoloration. I wasn't sure if that
12 was -- what that was related to. And so it may
13 have gone through the toning process but if it
14 had, again, that was another thing that, after
15 that, needed the washing and drying and --

16 Q. After the toning process?

17 A. Yeah. After that it goes through
18 another whole washing process, another drying
19 process and then another -- it's like this iron,
20 basically, that flattens the print. So --

21 Q. And you never did that?

22 A. Never got to that point.

23 Q. So that if we have now prints that
24 are at a point or a stage, if you will, of

1 development and finalization that includes those
2 final steps somebody else did them, you didn't?

3 A. Well, I don't believe I ever saw
4 any that were in that final step.

5 Q. All right. Thank you. That's all
6 I have on that subject matter. Let me move on
7 to another area.

8 I want to talk about your duties as
9 a pathologist at the Hamilton County Morgue.
10 You were functioning as a fellow in pathology
11 all during the period of time that involves this
12 case, right?

13 A. Yes.

14 Q. Say, you know, the August period
15 through January, correct?

16 A. Yes.

17 Q. And was it part of your duties to
18 access bodies?

19 A. Yes.

20 Q. Was it part of your duties to
21 manipulate bodies?

22 A. Yes.

23 Q. I would say it's safe to say
24 there's no way that you can perform your

1 function as a pathologist for the Hamilton
2 County Morgue without accessing and manipulating
3 the bodies, correct?

4 A. Correct.

5 Q. During the entire period of time
6 that you functioned as a fellow for the Hamilton
7 County Coroner's Office did you ever improperly
8 manipulate any body at any time?

9 A. No.

10 Q. Did anybody ever accuse you of
11 improperly manipulating any body at any time?

12 A. These guys have.

13 Q. When you say "these guys" tell me
14 who you're talking about.

15 A. Mr. Ganson.

16 Q. Okay. And the lawyers in the
17 Chesher case, as well?

18 A. And the Hamilton County
19 Prosecutor's Office.

20 Q. Okay. Did the -- and tell me what
21 that involved.

22 A. Well, I mean --

23 Q. Can you identify the body and what
24 it is you allegedly did wrong?

1 A. Well, I'm not going to go through
2 the whole criminal case and list each count. I
3 mean, you can read the counts and see what they
4 accuse me of, every single body of manipulating
5 and accessing improperly.

6 Q. Okay. All right. Did you, as part
7 of your duties, take photos?

8 A. Yes.

9 Q. And where, as part of your duties
10 as a fellow pathologist for the Hamilton County
11 Coroner's Office, did you take photos during the
12 period of time you worked there?

13 A. I'm sorry. Could you repeat the
14 question?

15 Q. Yes. You took photos as part of
16 your duties as a fellow pathologist with the
17 Hamilton County Coroner's Office, correct?

18 A. Yeah.

19 Q. When you did that where did you
20 take those photos?

21 A. They would be at the Coroner's
22 Office or at scene investigations.

23 Q. Did you ever take any photos at any
24 time that were not within the scope of your

1 duties as a fellow pathologist at the Hamilton
2 County Coroner's Office?

3 A. I never did.

4 Q. In this particular -- strike that.

5 You took photos at crime scenes,
6 correct?

7 A. Yes.

8 Q. All right. And you've already
9 testified about that and I don't want to repeat
10 all of that testimony. But my question is did
11 Thomas Condon ever accompany you with respect to
12 any photo you ever took at any time at any crime
13 scene while you were employed by the Hamilton
14 County Coroner's Office?

15 A. No.

16 Q. Did Mr. Condon, to your knowledge,
17 ever in any way, shape or form access, view,
18 manipulate, photograph anything with reference
19 to the body of Ronald Melton?

20 A. No.

21 Q. Do you know of any physical
22 possible way that Mr. Condon could have done
23 that?

24 A. No.

1 Q. Just one other area that I want to
2 talk about or ask you questions about if you'll
3 just bear with me a second. Do you recall off
4 the top of your head, Doctor, when -- what the
5 date was when you met with myself and certain
6 other counsel in this case for purposes of being
7 interviewed on a Sunday?

8 A. The exact date I do not recall.

9 MR. GILLIGAN: Off the record.

10 (Off the record discussion.)

11 Q. Dr. Tobias, you'll recall that
12 there was an affidavit also that you gave for
13 purposes of the Chesher case?

14 A. Yes.

15 Q. And as Mr. Ganson was kind enough
16 to give me the date it was signed on May 21st,
17 2003, and have you seen that affidavit recently?

18 A. Yes.

19 Q. Is there anything in the affidavit
20 that you believe is inaccurate or incorrect or
21 false in any way?

22 A. No.

23 Q. Will you reaffirm it --

24 A. Yes.

1 Q. -- to be true and accurate?

2 A. Yes.

3 Q. Prior to May 21 within a matter of
4 a few days, whatever that Sunday was, let's say
5 I think it probably would have been about the
6 17th or 18th of May, you had occasion to be
7 interviewed by myself, correct?

8 A. Correct.

9 Q. And do you recall whether or not
10 you were present with legal counsel?

11 A. Yes, I was.

12 Q. What legal counsel were you present
13 with?

14 A. I was present with Marc Mezibov,
15 Jack Scott, and I believe Joe Mordino was there,
16 too.

17 Q. And do you recall that in addition
18 to myself Mr. Barbieri was there?

19 A. Yes.

20 Q. And Mr. Hurley was there?

21 A. Yes.

22 Q. Jamie Scott from my office was
23 there?

24 MR. GANSON: Jamie Ramsey.

1 Q. I mean Jamie Ramsey?

2 A. Yes.

3 Q. Anyone else that you recall?

4 A. I don't remember anyone else.

5 Q. Okay. And do you recall that the
6 reason why the meeting was held on a Sunday was
7 simply convenience to get the parties together
8 since there was some filing deadlines that were
9 coming up the following week?

10 A. Well, the reasons -- I mean, when
11 you start asking reasons you're asking me from
12 what I've been told by my attorneys.

13 Q. Okay. Then I don't want -- then
14 don't answer my question. I don't want you to
15 reveal anything your lawyers told you. Okay.
16 So the reasons for why that particular date was
17 picked, you weren't involved in that, you just
18 agreed to appear at that time?

19 A. Well, again, I would invoke
20 attorney/client privilege and not give the
21 reasons I was told.

22 Q. Okay. The arrangements for the
23 meeting were set up by your lawyers?

24 A. I believe so, yeah.

1 Q. All right. Now when you appeared
2 to give the affidavit did you do so voluntarily?

3 A. Yes.

4 Q. Were you coerced in any way?

5 A. I was not coerced. I think I need
6 to clarify one thing. At the time I was feeling
7 threatened by the county in the sense that I was
8 under the -- had this dec action going on with
9 the county regarding my defense and the -- I
10 felt some pressure in regards to that dec action
11 that there would be no hope of resolution to the
12 dec action unless I cooperated at that moment,
13 and coming so soon after my appeal I felt rather
14 -- I had a lot of distaste at cooperating at
15 that time.

16 But in regards to the affidavit
17 everything in it is true. Everything I said was
18 -- came from me. No one told me what to say.

19 MR. GILLIGAN: All right. That's
20 all the questions I have. Thank you.

21 MR. GANSON: With permission I'd
22 like to take a real quick break.

23 MR. WHITAKER: Sure.

24 CROSS-EXAMINATION

1 BY MR. GANSON:

2 Q. Good morning, Dr. Tobias.

3 A. Good morning.

4 Q. I'm Michael Ganson as we've
5 introduced each other and I think we even know
6 each other from previous occurrences.

7 I'm going to ask you a number of
8 questions and I know you've been through a
9 number of depositions so I'm only going to
10 repeat one instruction and that's particular to
11 me. There will be times I may ask a question
12 that is unintelligible to you. And rather than
13 answer that question I would ask that you ask me
14 to rephrase it or restate it so that we can have
15 a clear understanding. There will be times,
16 happens every time I ask questions. So with
17 that in mind do you agree to do that in the
18 event that I ask a question that you just don't
19 understand?

20 A. Yes.

21 Q. Okay. As you know I represent a
22 number of Meltons, siblings of Mr. Ron Melton.
23 I would like to break this into certain areas.
24 I have reviewed the depositions. You heard the

1 stipulation. I'm going to try not to get into
2 the same information that was elicited from you
3 in those previous depositions. But there are
4 certain areas that I need clarification.

5 What I would like to do is break
6 this into different parts, and the first part
7 that I would like to address is your
8 relationship with the Hamilton County Morgue's
9 Office and then we'll flow through pretty much
10 on a chronological basis. Okay?

11 A. Okay.

12 Q. Okay. As I understand you were
13 brought on board with the Hamilton County
14 Morgue's office as a fellow, right?

15 A. Correct. Yes.

16 Q. You'd already gone through a
17 residency program elsewhere, correct?

18 A. No, not quite. I started my
19 fellowship in the middle of my residency and I
20 was going to go back and finish my residency
21 afterwards.

22 Q. And where did you begin your
23 residency?

24 A. I did my first year of residency at

1 UCLA and then after moving here continued at the
2 University of Cincinnati.

3 Q. You didn't continue your residency
4 at the University of Cincinnati immediately upon
5 returning to Cincinnati from UCLA, though; is
6 that correct?

7 A. It was a four month gap.

8 Q. Is a fellowship a part of the
9 residency?

10 A. No.

11 Q. Is a fellowship an additional
12 training period over and above the residency?

13 A. Yes.

14 Q. Okay. And I take it that you chose
15 the Hamilton County Morgue's office, or asked to
16 become a fellow at the Hamilton County Morgue's
17 Office because of your interest in forensic
18 pathology, right?

19 A. Yes.

20 Q. Okay. What was difference in the
21 context of what you were doing at UCLA and your
22 first year residency and what you were going to
23 be doing and actually did, in fact, do at the
24 Hamilton County Morgue's Office?

1 A. Well, it was -- it was completely
2 different aspects of pathology. At UCLA I was
3 learning general pathology and I was just
4 starting out so I didn't know anything at the
5 moment and as a fellow was focused on forensic
6 pathology, and forensic pathology is something
7 that you only briefly touch on during your
8 residency. And in order to practice forensic
9 pathology you need that extra year of training.

10 Q. So it's sort of like a
11 specialization then?

12 A. Yes.

13 Q. Usually when you're a fellow, as I
14 understand, you go on to become board certified
15 in that particular area of specialty. Is that
16 what your intention was at the time?

17 A. Yes.

18 Q. Okay. And at the time that you
19 became a fellow at the Hamilton County Morgue's
20 Office you'd already completed the first year of
21 your residency because I saw that you joined the
22 Hamilton County Morgue in July and my
23 understanding is that doctors will go from place
24 to place in that July 1st timeframe. Is that a

1 fair statement?

2 A. Yeah. Though I had also completed
3 eight months at University of Cincinnati prior
4 to the fellowship.

5 Q. So you had a year and eight months?

6 A. Correct.

7 Q. Were you taking -- was the plan at
8 the time that you joined the Hamilton County
9 Morgue to do the fellowship to return to finish
10 up your -- is it a two year residency?

11 A. Actually it's a -- depending on how
12 it goes it's a five year residency normally.

13 Q. Five year residency for
14 pathologists generally?

15 A. Yeah, for general pathology.

16 Q. And how much time for the
17 fellowship, one year?

18 A. One year.

19 Q. So basically you were interrupting
20 the residency process for the fellowship year?

21 A. Correct.

22 Q. Would that fellowship go toward
23 that five years of residency?

24 A. It actually is optional. If one

1 decides to put it towards -- with pathology
2 there's one year that one can do pretty much
3 anything medically related. And if one decides
4 they can put that year of your fellowship
5 towards that fifth year of residency. The only
6 caveat is you can't become board certified in
7 that fellowship specialty.

8 Q. So actually then your intention was
9 six years?

10 A. Yes, unless I did not enjoy
11 forensic pathology then I would have just
12 counted it as a year of residency.

13 Q. And as I understand it during Mr.
14 Gilligan's questioning you've now moved your
15 focus of interest away from forensic pathology
16 to other areas of pathology; is that a fair
17 statement?

18 A. Yes.

19 Q. And I take it the reason that you
20 did that was because of what happened to you at
21 the Hamilton County Morgue's Office in the
22 context of the criminal proceedings and the
23 civil proceedings and so on; is that a fair
24 statement?

1 A. Yes.

2 Q. Not because of a lack of interest
3 in the particular area, in other words, right?

4 A. Well, I mean, I think all those
5 things have given me a lack of interest.

6 Q. But, in other words, that was the
7 impetus for your decision, not because --

8 A. Yeah.

9 Q. During that July to the period of
10 time when all of a sudden you're faced with
11 these accusations by the Hamilton County
12 prosecutor and so on, during that period of time
13 prior to that you had an interest in forensic
14 pathology, right?

15 A. Correct.

16 Q. Okay. When you joined the Hamilton
17 County Morgue's Office as a fellow were you
18 given any policies, procedures, rules, personnel
19 manuals, anything that showed course of conduct,
20 duties and responsibilities, anything along that
21 line at all?

22 A. Yeah. I was given their binder,
23 the policy binder and I was given about a two
24 page thing which I think was part of the binder

1 on what my duties were.

2 Q. Do you still have that?

3 A. I think it's part of the -- I think
4 it's been filed as part of the -- this case, or
5 at least part of the Chesley case. I'm not sure
6 if I still have it or if my attorneys have it.

7 Q. But whatever you had you either
8 turned over to your attorneys for copying
9 purposes and retain a copy -- or the original, I
10 should say, or you turned it over entirely, you
11 no longer have it at all; is that a fair
12 statement?

13 A. Yeah.

14 Q. And I take it, when you say your
15 counsel, you're talking about Mr. Scott and Mr.
16 Mordino, right?

17 A. And Mr. Mezibov, and I understand
18 they've shared some documents with Glenn. But I
19 don't know which documents.

20 Q. All right. And when you say Glenn,
21 you mean Mr. Whitaker?

22 A. Yeah.

23 Q. Okay. In the context of the notice
24 of deposition this has been scheduled a number

1 of different times and obviously for reasons
2 outside of anybody's control didn't happen until
3 today. Did you receive a copy of the request of
4 the items that we asked to be produced in the
5 context of your deposition?

6 A. I personally didn't receive one but
7 my attorney did.

8 Q. Okay. And when you say your
9 attorney, are you referring to Mr. Mordino?

10 A. No. Mr. Whitaker.

11 Q. Okay. So when the previous
12 deposition scheduled that did not occur when Mr.
13 Mordino was counsel of record along with Mr.
14 Scott you did not see a copy of the list of the
15 items that were requested to be produced?

16 A. I may have. I just don't recall.

17 Q. I'm going to hand you a copy of the
18 items that were requested. Would you tell me if
19 you have any of the items listed in the numbered
20 item one?

21 A. No, I do not have any of them.

22 Q. Did you at any time have any of
23 those documents or materials?

24 A. Not that I recall.

1 Q. And you never, therefore, had an
2 opportunity to turn anything listed in number
3 one to counsel, I take it, right?

4 A. If I never had it I never could
5 have given it.

6 Q. Okay. Would you answer the same
7 questions with respect to number two? In the
8 interest of time I'll ask you to go through each
9 one and answer the questions.

10 A. I don't have any of those documents
11 either.

12 Q. In number two?

13 A. In number two.

14 Q. Never had any of those, right?

15 A. Not that I recall, no.

16 Q. How about the next item numbered
17 document?

18 A. Number three, the only opinion here
19 is the one letter which I don't have but which
20 was -- I think I may have a copy of it but which
21 was produced by someone else --

22 Q. Okay.

23 A. -- from the Hamilton County
24 Prosecutor's Office.

1 Q. Continue on.

2 A. Again, I don't have any of those
3 documents.

4 Q. And that's with respect to number
5 four?

6 A. Number four.

7 Q. Continue on, sir. And, again, this
8 is a series of questions and in the interest of
9 time I'm not repeating myself. When you say "I
10 don't have any" we're talking about you never
11 had them, right?

12 A. Correct.

13 Q. Okay. Go ahead.

14 A. And number five, any documents I do
15 have fall under attorney/client privilege.

16 Q. And, therefore, you do have
17 documents that pertain to number five but they
18 have not been produced on the basis of
19 attorney/client privilege, is that a fair
20 statement, with respect to item number five
21 request?

22 A. Yes.

23 Q. Okay. How about the next item,
24 sir?

1 A. I do not have anything relating to
2 number six.

3 Q. Never have, correct?

4 A. Never have.

5 Q. Okay. Continue on, sir.

6 A. I do not have any documents and
7 never have related to number seven. In regards
8 to number eight any documents that I may have
9 had would have been included in that coroner
10 policy manual which I no longer have.

11 Q. Turned over to counsel, right?

12 A. Well, no. I don't believe I ever
13 took it from the building.

14 Q. Okay. So it would be within the
15 control and custody of the Hamilton County
16 Morgue --

17 A. Correct.

18 Q. -- personnel?

19 A. Well, in number nine I don't have
20 any documents and never have. Number 10 it
21 seems to me refers to any piece of paper,
22 anything relating to this case and, I mean, I
23 have printouts of the various lawsuits and
24 motions but nothing that has not been produced.

1 Q. Other than that which is
2 attorney/client privileged, right?

3 A. Correct.

4 Q. Okay.

5 A. With regard to number 11 I don't
6 have any documents, never have. In regards to
7 number 12 I don't have my personnel file.

8 Q. That's within the control and
9 custody of the Hamilton County Morgue's office?

10 A. Correct.

11 Q. Okay. Never requested a copy of it
12 yourself?

13 A. You know, I don't know if my
14 attorneys did or not.

15 Q. You've never seen one?

16 A. Personally I never requested it
17 and I don't recall ever seeing one.

18 Q. Okay.

19 A. Regarding private photographic
20 collections you're referring to my own
21 photograph collection? I do have pathology
22 photographs but not -- I don't have anything
23 from the Hamilton County Morgue.

24 Q. Okay. So there are no private

1 photograph collections of any of the cases on
2 which you worked while you were in your
3 fellowship at the Hamilton County Morgue; is
4 that a fair statement?

5 A. Yeah. That's a fair statement.

6 Q. There were photographs, though, at
7 some point in time of cases on which you worked
8 while you were a fellow at the Hamilton County
9 Morgue, correct?

10 A. No. I mean, I'm referring to
11 photographs from residency of -- you know, often
12 times we'll take photographs of a lung because
13 that has an interesting tumor, or a piece of
14 liver. Those are the kind of photographs I'm
15 referring to.

16 Q. What about photographs of death
17 scenes and those types of things? Did you keep
18 a private photo collection with that?

19 A. No. Those would all be related to
20 fellowship program because that's the only times
21 I ever went -- and I have no collection, I have
22 no photographs in my possession that I took at
23 all during that period.

24 Q. I understand that. But it is a

1 fact, as I understand the state of the record at
2 this point, that you did take photographs while
3 you were a fellow at the Hamilton County
4 Morgue's Office that you took for what you
5 referred to as teaching purposes?

6 A. Correct.

7 Q. For you to hold on to privately,
8 right?

9 A. Yeah. Though, again, those were
10 photographs taken during -- I mean, there's two
11 groups of photographs. There's the ones that
12 were on the Bronica camera which I think have
13 all been -- we all have seen those, and then
14 there's the photographs taken with the digital
15 cameras which were all on file at the Hamilton
16 County Morgue. And the practice in regards to
17 the digital photos was to save them on disk or
18 on CDs and keep that. But at the point when I
19 left there I never had had that opportunity to
20 do that.

21 Q. At the point that you left the
22 Hamilton County Morgue's office you had not had
23 an opportunity to do what?

24 A. To copy those pictures. As, you

1 know, when I left -- when I started my
2 fellowship the previous fellow who was there
3 from the year before was going through all the
4 photographs of all the cases he had done and was
5 taking Kodachromes, they were on slides, for his
6 own collection. And at the point -- and because
7 the things were now in -- digitized I had the
8 opportunity, or I would have the opportunity to
9 go through and look at the photographs on the
10 computer and copy those on to a CD before I
11 left. And as of January I'd yet to do that.

12 Q. Okay. So as of January from the
13 period of July of 2000 through January of 2001
14 when your fellowship abruptly ended at the
15 Hamilton County Morgue's office, at that point
16 in time you had not yet created a private photo
17 collection for teaching purposes, I take it; is
18 that a fair statement?

19 A. Yeah. Had not physically created
20 one.

21 Q. Okay. And up until then all the
22 photographs that you had taken other than with
23 the non-digital camera were a part of the
24 Hamilton County Morgue's official files on the

1 various cases that passed through the morgue's
2 offices, right?

3 MR. WHITAKER: I'm going to object.
4 You excluded the Bronica.

5 Q. Well, I'll cover the Bronica but I
6 just want to make sure, the Hamilton County
7 Morgue's Office, at the time that you came on
8 board, had converted over to a digital camera
9 system, right?

10 A. Well, they were in the process.
11 They -- actually when I first started I was
12 still using slide photography for the first
13 month or so.

14 Q. For July?

15 A. Yeah.

16 Q. Okay. When you took -- then let's
17 break it down so I have a good understanding
18 what exactly the situation is. From July 1
19 until August 1st approximately, that one month
20 period, you did not have a digital camera issued
21 by the Hamilton County Morgue's office; is that
22 a fair statement?

23 A. Well, I think they used it for the
24 scenes.

1 Q. Scenes of the incidents?

2 A. Yeah. But for the autopsy
3 photographs it was still slides.

4 Q. Okay. And is that on the Bronica
5 camera that -- to which you referred?

6 A. No. That was some other cameras
7 they had.

8 Q. And then at some point in time
9 after that first month that you came on board as
10 a fellow they then switched over even for the
11 autopsy photographs to a digital camera, fair?

12 A. Yes.

13 Q. Okay. And so at that point in time
14 presumably everybody was using digital cameras,
15 fair statement?

16 A. Yeah.

17 Q. Okay. For that one month period,
18 approximately, when you were using non-digital
19 cameras were those photographs that you were
20 taking in the course and scope of your
21 fellowship with the Hamilton County Morgue's
22 Office filed with the Hamilton County Morgue's
23 official files?

24 A. Yes.

1 Q. Were copies of those photographs
2 taken by you at any point for personal private
3 collections for teaching purposes or otherwise?

4 A. No. Those -- if there was
5 something interesting one would take several
6 photographs of it so you could just take a slide
7 out of the file. But I had not taken any
8 slides.

9 Q. Okay. It was your intention at
10 some point as you came to a close with your
11 fellowship that you were going to develop your
12 teaching, private teaching photo file; is that a
13 fair statement?

14 A. Yes.

15 Q. Okay. With respect to the digital,
16 all the digital photos that you took ended up in
17 the official Hamilton County Morgue's files for
18 that particular individual that was being
19 photographed; is that a fair statement?

20 A. Yes.

21 Q. Okay. Now with respect to the
22 Bronica, as I understand it the photo that you
23 took of Mr. Melton did not make it into the
24 official Hamilton County Morgue's file on Mr.

1 Melton; is that a fair statement?

2 A. Yes.

3 Q. Now let's back up. I'm sorry I
4 went off this tangent. But back to the manual
5 and such I take it -- first, before I do that,
6 we've covered all items, right?

7 A. Well, not 13 and 14.

8 Q. I think we covered 13 but correct
9 me if I'm wrong. You had none, as I understand
10 it?

11 A. Yeah. I have none.

12 Q. Okay. And then 14?

13 A. I don't have that.

14 Q. You don't have anything on that?

15 A. No.

16 Q. Never have?

17 A. Never.

18 Q. Okay. Doctor, you were given this
19 manual upon arriving at the Hamilton County
20 Morgue's Office. Did any part of that manual
21 deal with the procedures that you were expected
22 to follow with respect to maintaining
23 photographs of individuals who passed through
24 the morgue, deceased individuals obviously, in

1 the context of what was to be done with these
2 photographs?

3 A. No.

4 Q. Were you ever provided with any
5 written material that documented the policy,
6 procedure and rules that pertained to
7 photographs that were taken in the official
8 course and scope of your practice in the
9 Hamilton County Morgue as a fellow in the
10 context of what to do with those once they were
11 taken?

12 A. No.

13 Q. Were you, at any point in time at
14 the time that you came on board as a fellow with
15 the Hamilton County Morgue's Office, given any
16 other direction as to the policies, procedures
17 and rules as to the handling of photographs in
18 the context of cases that passed through the
19 Hamilton County Morgue in which you were
20 involved?

21 A. No.

22 Q. Were you ever given oral
23 instructions as to the policies, procedures and
24 rules in the handling of photographs that you

1 took in the context of cases in which you were
2 involved or potentially would be involved that
3 passed through the Hamilton County Morgue's
4 Office?

5 A. Can you repeat that question?

6 Q. Surely. I'll tell you, rather than
7 me repeat it why don't I have the court reporter
8 read it?

9 (Record read by Reporter.)

10 A. No. I mean, there was no --

11 Q. Who was your direct supervisor at
12 the Hamilton County Morgue's Office?

13 A. Well, Dr. Pfalzgraf was the
14 director of the fellowship program.

15 Q. Did Dr. Pfalzgraf ever instruct you
16 as to what the rules, policies and procedures of
17 the handling of photographs would be that you
18 would be taking during your fellowship with the
19 Hamilton County Morgue's Office in the context
20 of cases that went through the Hamilton County
21 Morgue's Office?

22 A. No.

23 Q. Did Dr. Parrott ever inform you as
24 to that aspect as far as photographs? Same

1 question with respect to Dr. Parrott?

2 A. No.

3 Q. Did Dr. Utz?

4 A. No.

5 Q. Same question. How about Terry
6 Daly?

7 A. No.

8 Q. How did the Hamilton County
9 Morgue's Office communicate to you what the
10 policies, procedures and rules were with respect
11 to the handling of photographs taken by you in
12 the context of your fellowship with the Hamilton
13 County Morgue on cases that passed through the
14 Morgue's Office?

15 A. I was never, that I recall, given a
16 policy in regards to the photographs.

17 Q. Were you ever instructed as to the
18 security of these photographs in the context of
19 them being official records and the process by
20 which they could be released into the public?

21 A. Yeah. I was told that, actually on
22 a number of occasions, that they're public
23 record and that anyone can come and request
24 them.

1 Q. Was there ever any indication in
2 writing as to that effect?

3 A. No, except for that it had occurred
4 in the past.

5 Q. What had occurred in the past?

6 A. That I think people had come and
7 requested photographs and they just were given.

8 Q. The question, though, is was this
9 something in writing that you reviewed and saw
10 that was prepared and provided to you by the
11 Hamilton County Morgue in the context of your
12 fellowship?

13 A. What was?

14 Q. The release of photographs into the
15 public stream?

16 A. No. I think it was just part of
17 the statute, if I remember. There was -- I was
18 told that the statute says that everything the
19 Coroner's Office does is public record.

20 Q. Who told you that?

21 A. I was told that by the -- at least
22 I remember Terry Daly mentioning that to me, and
23 I believe Pfalzgraf, and I know Utz did.

24 Q. Did the three of them tell that to

1 you at the time that you came on board with the
2 Hamilton County Morgue as a fellow?

3 A. Well, it wasn't mentioned as like
4 this is the policy you must follow. It was just
5 kind of a general statement when I started that,
6 you know, everything here is public record and
7 that's --

8 Q. And that was it? Is that a fair
9 statement?

10 A. Yeah. I mean, that was -- it was
11 also, you know, in regards to things like notes
12 you might take during an autopsy, that those are
13 public record and so just to, you know, be
14 careful, they said, about what you -- especially
15 when it came to, like, criminal cases because
16 you don't want to write something down that's
17 different from what you dictate and whatnot.

18 Q. Okay. So basically I take it from
19 what you're saying, if I may paraphrase, what
20 I'm understanding you're saying is that they
21 were telling you in the context of your
22 fellowship with the Hamilton County Morgue's
23 Office beware, be advised. Everything that you
24 do is subject to public scrutiny because as a

1 matter of statute anybody in the public can get
2 access to the Hamilton County Morgue's official
3 records. Is that a fair statement?

4 MR. BARBIERE: Objection.

5 MR. GILLIGAN: Object to the form
6 of the question.

7 MR. WHITAKER: Objection.

8 A. No. It wasn't -- that was never
9 told to me that subject to public scrutiny. It
10 was just stated that this is an open place and
11 it's -- and everything here is public record.

12 Q. Okay. Did you ever receive
13 instructions as to the process by which a member
14 of the public would be able to access records
15 and photographs contained within the Hamilton
16 County Morgue's official records?

17 A. No.

18 Q. Did you understand that there was a
19 process by which members of the public would be
20 able to access the Hamilton County Morgue's
21 official records?

22 A. I didn't know that there was a
23 process.

24 Q. Certainly during your tenure as a

1 fellow for the Hamilton County Morgue's Office
2 you were never in the position to observe a
3 member of the public come in and just rifle
4 through the official records and files of the
5 Hamilton County Morgue's Office, though,
6 correct?

7 MR. GILLIGAN: Object.

8 A. I never saw anyone do that.

9 Q. Okay. Were you aware of, by way of
10 written instructions through this manual or
11 other written direction, as to the procedure
12 that a member of the public would be able to
13 access the Hamilton County Morgue's official
14 records?

15 A. I don't recall seeing anything like
16 that.

17 Q. Did you understand that you were to
18 be placing everything that you did into the
19 official records of the Hamilton County Morgue's
20 Office in your context as a fellow at the
21 Hamilton County Morgue?

22 A. Can you repeat that?

23 Q. Were you instructed that everything
24 that you do in the context of your fellowship at

1 the Hamilton County Morgue was to be placed
2 within the official records of the Hamilton
3 County Morgue?

4 A. No. I was not instructed.

5 Q. Did you ever receive anything in
6 writing that indicated that everything that you
7 did was to be placed into the Hamilton County
8 Morgue's official records in the context of
9 anything written or any photographs taken?

10 A. No.

11 Q. Was it your understanding that if a
12 member of the public came to you and said "I
13 want to see materials concerning Mr. Melton"
14 that you would be able to just turn that file
15 over to him or her?

16 MR. GILLIGAN: Excuse me. Could
17 you read the last question again?

18 (Record read by Reporter.)

19 MR. GILLIGAN: Thank you.

20 A. I wouldn't have done that but I --
21 there was no -- you know, I wasn't told what I
22 should do. I would have probably asked someone
23 what I should do.

24 Q. Who would you have asked?

1 A. I would have asked one of the
2 doctors.

3 Q. Dr. Pfalzgraf, Dr. Utz?

4 A. Dr. Schultz.

5 Q. Dr. Parrott?

6 A. Dr. Parrott.

7 Q. Would you have asked Mr. Daly?

8 A. I may have, would have asked him or
9 Ronda Gros.

10 Q. But as far as when you came on
11 board as a fellow you were never given any
12 specific instructions as to how a member of the
13 public would release -- would receive either
14 photographs or official records out of the
15 official file of the Hamilton County Morgue,
16 right?

17 A. Right.

18 Q. Okay. With respect to, again, the
19 instructions that you received upon arriving at
20 the Hamilton County Morgue as a fellow did any
21 of that contain any directions as to the
22 policies, procedures and rules in the handling
23 -- in your handling of the official record and
24 file of the Hamilton County Morgue?

1 A. I'm sorry. Can you repeat the
2 question again?

3 Q. If you would.

4 (Record read by Reporter.)

5 A. Not that I recall.

6 Q. How did they expect you to
7 understand, if you know, I mean, is this
8 something that -- I'm trying to get an
9 understanding that because you had already gone
10 through residency that you would know, just by
11 virtue of your position and past experience,
12 what the policies and procedures and rules would
13 be.

14 MR. GILLIGAN: Object to the form
15 of the question. Just one of the many facets of
16 the objection I object to is your reference to
17 "they" because we don't know who "they" is. And
18 your previous questions had a whole lot of
19 people identified.

20 A. What was explained to me was that
21 there was a difference between where I had just
22 come from where there's -- from the hospital
23 setting to this setting. The hospital setting
24 there's doctor/patient privileges and certain

1 things that go along with that. In regards to
2 this setting they said there is none. It's
3 public. And also in regards to your medical
4 charts when you're writing medical charts you
5 don't write, I mean, you can write stuff that
6 may not, what's the word, necessarily be --
7 you're writing the stuff to take care of the
8 patient and you're not so worried about how the
9 patient's going to feel about what you're
10 writing. But in regards to the Coroner's Office
11 I was told that, you know, the sheets and
12 descriptions you write of the scenes and
13 whatnot, that the families can get hold of and
14 it's all public and anyone can see it and so to
15 keep that in mind.

16 Q. Who told you that?

17 A. I believe that was Dr. Pfalzgraf
18 told me that.

19 Q. Anybody else?

20 A. I don't remember.

21 Q. Did anybody advise you from the
22 Hamilton County Morgue's Office regarding the
23 policies, procedures or rules in the handling of
24 photographs that you took with the non-digital

1 camera for that one month or so in terms of how
2 those were to be developed?

3 A. No.

4 Q. Did anybody give that same question
5 with respect to where they were to be developed?

6 A. No.

7 Q. Did anybody restrict your places of
8 developing those photographs?

9 A. No.

10 Q. Was it your understanding that
11 those photographs were to be developed on site
12 in the darkroom on the second floor of the
13 Hamilton County Morgue facility?

14 A. No. I didn't even know they had a
15 darkroom and I had actually told them where I
16 was developing the photos.

17 Q. When you say you told them what did
18 you tell?

19 A. I had told the doctors, I know Dr.
20 Pfalzgraf and Dr. Utz, and I know I told Terry
21 Daly and I, at some point, told Dr. Parrott.

22 Q. Now did you tell them that that's
23 where you were developing the non-digital camera
24 photographs that you were taking of your

1 official cases so -- cases that went through the
2 Hamilton County Morgue's Office?

3 A. Yes.

4 Q. At what point in time did you tell
5 them that's where you were having these
6 photographs developed?

7 A. As soon as I got the camera.

8 Q. Now which camera we talking about,
9 the --

10 A. The Bronica camera.

11 Q. I'm talking about before -- the
12 Bronica camera, as I understand it, was not the
13 camera that you were using during the first
14 month that you came on board as a fellow at the
15 Hamilton County Morgue; is that a fair
16 statement?

17 A. Yes.

18 Q. I'm talking about that camera.
19 Where did those films that you took photos with,
20 that camera, get developed?

21 A. I don't know. Terry Daly developed
22 them.

23 Q. Okay. So basically, as I
24 understand it, then, you would take the

1 photographs with this non-digital camera and
2 then the film from that camera would be given to
3 Mr. Daly to develop the film; is that a fair
4 statement?

5 A. Yeah.

6 Q. Did you give him the film or did he
7 come and acquire the film himself from the
8 cameras?

9 A. I think he just came and acquired
10 it.

11 Q. Okay. And then something different
12 occurred with respect to the Bronica, is that a
13 fair statement, in terms of how the development
14 occurred of the film that you took of the
15 photographs?

16 A. Yes.

17 Q. Okay. And my understanding with
18 respect to that is that you found a Bronica
19 camera at the Hamilton County Morgue's Office
20 that belonged to the Hamilton County Morgue,
21 right?

22 A. Yes.

23 Q. And I take it that you found that
24 on the second floor of the Hamilton County

1 Morgue's premises?

2 A. Actually it was the third floor in
3 the crime lab.

4 Q. In the crime lab. Are you familiar
5 now with the fact that there was a darkroom at
6 the Hamilton County Morgue's Office for
7 developing film?

8 A. Well, I only am familiar because
9 I've heard it testified during depositions.

10 Q. But you've never seen it?

11 A. No.

12 Q. Never accessed it?

13 A. No.

14 Q. Never viewed it?

15 A. No.

16 Q. Still to this day, firsthand
17 knowledge, not even aware that it existed?

18 A. Correct.

19 Q. Never were informed at the time
20 that you came on board as a fellow with the
21 Hamilton County Morgue's Office that it existed?

22 A. Not that I recall.

23 Q. Not told from the time that you
24 came on board to the time that you were abruptly

1 terminating your relationship with the Hamilton
2 County Morgue's Office that this darkroom
3 existed?

4 A. No.

5 Q. And I take it that Mr. Daly never
6 informed you where he was developing the film
7 that he was acquiring of the -- from the cameras
8 that were being used before the full conversion
9 to digital cameras took place, right?

10 A. I don't remember exactly. I seem
11 to recall at some point him saying that there
12 was a machine that he used but my impression was
13 that there was no darkroom. It was just a
14 machine on a table like you see at Wal-Mart and
15 whatever.

16 Q. Okay. But you never saw that?

17 A. No.

18 MR. GILLIGAN: Never saw what?

19 Q. The machine that we're talking
20 about?

21 A. No. I never saw it.

22 MR. GILLIGAN: Not the machine at
23 Wal-Mart, the machine at the morgue?

24 A. Yeah.

1 Q. I understood that you meant the
2 machine at the morgue, sir. When you borrowed
3 this Bronica camera from the Hamilton County
4 Morgue's Office were you given any specific
5 instructions as to what photographs you were
6 permitted to take with that camera?

7 A. No.

8 Q. Were you ever restricted from
9 taking any photographs in the context of the
10 official cases that went through the morgue by
11 anybody at the morgue?

12 A. No.

13 Q. Were you ever instructed that you
14 weren't to use that camera any further, any
15 longer, the Bronica camera any longer, for
16 official cases going through the Hamilton County
17 Morgue?

18 A. Well, only when they took it from
19 me after -- when they suspended me.

20 Q. Right. I'm talking about that
21 timeframe between -- I guess in August is when
22 you borrowed the Bronica camera?

23 A. The exact time I don't -- somewhere
24 August.

1 Q. August, September 2000. And then
2 they took it from you in January of 2001?

3 A. Yeah, but during that time no one
4 restricted it.

5 Q. And they certainly knew that you
6 were using that camera for taking photographs in
7 the context of official cases going through the
8 Hamilton County Morgue's Office?

9 A. Yes.

10 Q. Okay. And as I understand Mr. Daly
11 came to you at some point in time during the
12 fall of 2000 to inquire as to when you would no
13 longer need to use or continue to borrow the
14 Bronica camera for your purposes; is that a fair
15 statement?

16 A. Yes.

17 Q. Okay. And did you understand at
18 the time that he came to you and asked you about
19 when you would be finished with the use of that
20 Bronica camera that he was under the impression
21 that you were using it for photographs of a
22 personal nature for your children and such?

23 A. I don't know what -- I don't know
24 if he knew that or not.

1 Q. Did he ever communicate to you that
2 he understood that you were using that Bronica
3 camera for a personal purpose as opposed to an
4 official purpose?

5 A. He never indicated to me anything
6 it was for.

7 Q. What was the context in which you
8 had this conversation with Mr. Daly where the
9 subject of your use of the Bronica camera should
10 come to an end at some point very shortly?

11 A. Well, he told me that they were
12 looking into getting -- converting it into a
13 digital camera. You could buy a device to
14 attach on to the back to make it digital. And
15 that's the context of what he was talking to me
16 about. He said that they were thinking of
17 taking that camera and converting it to a
18 digital camera.

19 Q. So the fact of you borrowing that
20 camera for personal purposes to take photographs
21 of your children and so on was never a subject
22 of discussion between you and Mr. Daly?

23 MR. GILLIGAN: Object to the
24 repetition. You already asked that question a

1 minute ago.

2 MR. WHITAKER: Object.

3 A. Not that I recall.

4 Q. Doctor, at any point in time during
5 the process as your relationship as a fellow
6 with the Hamilton County Morgue were you ever
7 told by Dr. Pfalzgraf not to use that camera?

8 A. No.

9 Q. Did he know that you were using it
10 for official purposes at the Hamilton County
11 Morgue?

12 A. Yes.

13 Q. Did anybody instruct you as to how
14 to handle the film of the photographs that you
15 took in the context of the official records of
16 official cases at the Hamilton County Morgue?

17 A. No.

18 Q. How about Dr. Utz? Was he aware
19 that you were using it for official purposes as
20 well?

21 A. Yes.

22 Q. Was Dr. Schultz aware that you were
23 using it for official purposes as well?

24 A. I think so, yes.

1 Q. What about Dr. Parrott? Was he?

2 A. I told him, yes.

3 MR. GILLIGAN: I'm sorry?

4 A. I said I had told him.

5 MR. GILLIGAN: Had told him?

6 A. Yeah.

7 Q. And was this prior to the January
8 2001 timeframe?

9 A. Yes.

10 Q. And at no point did anybody of the
11 doctors, not one of those doctors tell you in
12 the manner in which the film needed to be
13 handled in the context of the official records
14 keeping for the official files of the Hamilton
15 County Morgue?

16 A. No.

17 Q. Were you ever given specific
18 permission by the Hamilton County Morgue to
19 develop the film that you took of official cases
20 going through the Hamilton County Morgue with
21 that Bronica camera as to where to develop it?

22 A. Well, I told them where I was going
23 to develop it and developing it and they said it
24 was okay.

1 Q. You told them that you were going
2 to develop at Mr. Condon's studio?

3 MR. GILLIGAN: Excuse me. Can I
4 just ask that we clarify who "they" is because
5 we've now run through five different individuals
6 and is he answering that as collectively
7 Parrott, Pfalzgraf, Utz, Schultz? I don't know
8 if I missed anybody but that's who we
9 identified.

10 MR. GANSON: And Mr. Daly, as well.

11 MR. GILLIGAN: And Mr. Daly.

12 Q. If you would, Doctor, in order to
13 avoid objections on that context can you focus
14 on identifying who the they are when you answer
15 the question, sir?

16 A. Yes. I'll try.

17 Q. Okay. Who told you -- who did you
18 advise at the Hamilton County Morgue's Office
19 that you were using Mr. Condon's studio to
20 develop film of photographs that you took in the
21 official course of your duties at the Hamilton
22 County Morgue as a fellow?

23 A. I told Mr. Daly, Dr. Pfalzgraf, Dr.
24 Utz, Dr. Parrott.

1 Q. Did any of them give you
2 instructions of -- any of those individuals give
3 you instructions as to the handling of the film
4 in that context of the official file of the
5 Hamilton County Morgue?

6 A. No.

7 Q. Did any of them tell you that it
8 was not -- that the films, the negatives and the
9 prints were not to be released into the public
10 without being passed through the official file
11 of the Hamilton County Morgue's Office first?

12 MR. GILLIGAN: Object. I don't
13 understand the question, but go ahead.

14 Q. Do you understand that question?

15 A. I think so, yeah. The answer is
16 no.

17 Q. So basically, as I understand it,
18 Mr. Daly never gave you instructions that when
19 you develop film, upon learning that you were
20 developing film at Mr. Condon's studio, that
21 that negative, print needed to be returned to
22 the Hamilton County Morgue's Office to be placed
23 in the official file and not to be disclosed to
24 the public; is that a fair statement?

1 A. I need to hear the first part of it
2 again of your question.

3 (Record read by Reporter.)

4 A. Yes.

5 Q. Would that also be applicable to
6 Dr. Pfalzgraf?

7 A. Yes.

8 Q. Would that be applicable to Dr.
9 Utz?

10 A. Yes.

11 Q. Would that be applicable to Dr.
12 Schultz?

13 A. Well, I don't recall talking to
14 him. I may have but I just don't remember.

15 Q. What about Dr. Parrott?

16 A. Yes.

17 Q. Now as I understand it with this
18 Bronica camera you used it on more than one
19 occasion for official purposes of cases going
20 through the Hamilton County Morgue's Office
21 other than Mr. Melton's case; is that a correct
22 statement?

23 A. Yes.

24 Q. And you primarily used that camera

1 at death scenes, as I understand it; is that a
2 fair statement?

3 A. Yes.

4 Q. As opposed to the autopsy scenes,
5 right?

6 A. Right.

7 Q. And as I understand it you had that
8 camera for at least a few months; is that a fair
9 statement?

10 A. Yes.

11 Q. All right. And you were using it
12 both for personal use and for official purposes,
13 right?

14 A. Yes.

15 Q. Did you differentiate on the film
16 that which was personal as opposed to that which
17 was official? In other words, would you, if you
18 took so many pictures of a personal nature and
19 then you were switching to use it for official
20 purposes, would you take the film out of the
21 personal nature and put new film in? Did you
22 segregate the film that way?

23 A. No.

24 Q. So you would have film -- I take

1 it, then, that is correct -- would have both
2 personal and official purposes, photographs that
3 you had taken on the same film?

4 A. Yeah. But I just want to clarify
5 that I didn't take that many personal photos
6 with it.

7 Q. How many rolls of film would you
8 estimate you went through using that camera in
9 the official purposes that you were engaged in
10 as a fellow at the Hamilton County Morgue's
11 Office?

12 A. I don't know how many. Maybe 10.

13 Q. And my understanding is that this
14 takes special film, right?

15 A. Yeah. It's just -- it's a
16 little -- it's larger than 35 millimeter film.

17 Q. And it's also my understanding that
18 you paid for this film out of your own pocket,
19 right?

20 A. Yes.

21 Q. And you never submitted
22 reimbursement requests to the Hamilton County
23 Morgue's Office for the purchase of that film,
24 right?

1 A. Correct.

2 Q. Okay. Was it your intention to do
3 such that the majority of the film was being
4 used for official purposes?

5 A. Personally I didn't even think of
6 it.

7 Q. As I understand it the negatives
8 that you took of the Melton case were destroyed
9 by you after you became aware of the potential
10 of a claim being brought against you; is that a
11 fair statement?

12 A. Yeah.

13 Q. Okay. And did you do that with
14 advice of counsel or did you do that on your
15 own?

16 A. I did that on my own.

17 Q. Did you destroy all of the
18 negatives of all of the official cases that you
19 took photographs of while you were a fellow at
20 Hamilton County Morgue's Office with that
21 Bronica camera at the same time as you destroyed
22 the Melton photograph, or excuse me, prints,
23 negative?

24 A. There were photos at Mr. Condon's

1 studio that -- or negatives which became part of
2 this case. But I destroyed the -- I don't
3 remember if I had others or not at the time. I
4 don't remember.

5 Q. No one at the Hamilton County
6 Morgue's Office told you to destroy those
7 negatives; is that correct?

8 A. Correct.

9 Q. Okay. When you develop this, as I
10 understand it, the film no longer has any images
11 on it, basically everything that was on the film
12 is washed out and transferred to a negative; is
13 that a fair statement?

14 A. I don't quite understand.

15 Q. Well, when you put the film through
16 the process to create negatives, which can be
17 exposed to light, for instance, the film can't
18 be exposed to light otherwise you destroy
19 whatever is on the film, right?

20 A. Right.

21 Q. When you do the procedure that you
22 did in your bathroom to turn that into a
23 negative it's a negative, it's no longer film,
24 right?

1 A. I mean, it's still a roll of film.

2 It's just has been through a chemical process.

3 Q. That's what my point is. It's no
4 longer a roll of film that can be destroyed by
5 light basically, right?

6 A. Right.

7 Q. Okay. And what you have left are
8 the negatives?

9 A. Correct.

10 Q. Okay. How many rolls of negatives
11 did you destroy after you became aware of the
12 claims being alleged against you?

13 A. I don't remember.

14 Q. Was one of the rolls of negatives
15 that you destroyed the roll that contained Mr.
16 Melton's photo?

17 A. Yes.

18 Q. And then there were additional ones
19 as well?

20 A. There may have been. I know there
21 were undeveloped rolls. I'm not sure how many.

22 Q. And those were destroyed as well?

23 A. Yeah.

24 Q. Now, as I understand it with

1 respect to the Melton case you've already
2 indicated, in response to many questions, that
3 you took a photograph of Mr. Melton's upper
4 torso and head when he was brought in from the
5 scene because you thought that you were going to
6 be the pathologist doing the autopsy. Fair
7 statement?

8 A. Yes.

9 Q. Okay. As I understand it the
10 procedure that's followed in autopsies that you
11 usually do a full body view as is when the
12 individual's remains come into the morgue. Fair
13 statement?

14 A. Yes.

15 Q. Okay. In your case, however, you
16 just did the upper torso and the head; is that
17 correct?

18 A. Yes.

19 Q. Is there a reason why you deviated
20 from what was the standard operating procedure
21 of the Hamilton County Morgue as far as taking a
22 full body of the deceased upon arrival at the
23 Morgue's Office?

24 A. Well, that would have been taken

1 the next day. I don't think I deviated from the
2 policy or from the procedure. I never altered
3 the body in any way.

4 Q. As I understand it you -- the body
5 was in a body bag at the time it was brought in
6 from the scene, right?

7 A. Yeah.

8 Q. Okay. And you can't recall whether
9 you unzipped it or whether it was already just
10 open but covering the body, but you turned
11 whatever it was, you turned at least that
12 portion of it aside, right?

13 A. Yes.

14 Q. Okay. Now that was on, I believe,
15 November the 9th, right?

16 A. That sounds correct.

17 Q. Okay. As I understand it after you
18 took that photo that was the last photo on that
19 particular film, right?

20 A. Yes.

21 Q. And then you took that film out of
22 the camera and at some point in time thereafter
23 you developed it?

24 A. Yes.

1 Q. And turned it into a negative in
2 your bathroom?

3 A. Yes.

4 Q. Okay. And in my understanding
5 after that you went and took this negative over
6 to Mr. Condon's studio to print it, right?

7 A. Yes.

8 Q. As I understand Mr. Condon was
9 present at the time that you developed that into
10 a print; is that a correct statement?

11 A. Yeah.

12 Q. As I understand it when you say
13 that he was present that means that he was able
14 to observe these official records, these
15 official films or prints of official cases
16 through the Hamilton County Morgue's Office; is
17 that a fair statement?

18 MR. GILLIGAN: Object to the form
19 of the question.

20 A. He saw the picture, yes.

21 Q. And at that point you were not
22 aware of any requests by Mr. Condon to view
23 those, that photo, that negative, that print of
24 Mr. Melton; is that a fair statement?

1 A. Yes.

2 Q. But as far as your understanding
3 was concerned Dr. Pfalzgraf, Dr. Utz, Dr.
4 Parrott and Mr. Daly from the Morgue's Office
5 were aware that he would have access to view the
6 photographs that you were taking of the official
7 course and scope of your fellowship at the
8 Hamilton County Morgue's Office when you
9 developed those negatives at his studio; is that
10 a fair statement?

11 A. Yes.

12 MR. BARBIERE: Can we take a five
13 minute break?

14 Q. Sure.

15 (Break taken.)

16 Q. Real quick I'd like to backtrack.
17 When you destroyed the film, the undeveloped
18 film and the negatives to which we referred upon
19 learning that you were a potential target or,
20 you know, that there were going to be claims
21 made against you how did you destroy those?

22 A. The negatives I shredded, the film
23 that was undeveloped I just exposed to light.

24 Q. Where did you shred the negatives?

1 A. My house.

2 Q. Did you have a shredder at home?

3 A. Yeah.

4 Q. Did you have prints at that point
5 in time as well?

6 A. Not that I recall.

7 Q. All right. So you don't recall
8 destroying any prints; is that a fair statement?

9 A. Yeah.

10 Q. And I take it the purpose of
11 destroying those was because you became aware
12 that it wasn't as public records as you
13 anticipated?

14 MR. WHITAKER: Object.

15 MR. GILLIGAN: Object.

16 A. No, that's not the reason.

17 Q. Why did you destroy it then?

18 A. I destroyed them because I was
19 being accused of a crime and that I didn't
20 believe I did and I did it out of fear.

21 Q. You were under the impression that
22 your being accused of being in possession of
23 those films and negatives, that that would give
24 rise to you being somehow culpable criminally.

1 Is that a fair statement?

2 MR. WHITAKER: Object.

3 MR. GILLIGAN: Objection to the
4 form of the question.

5 A. I was being accused of committing
6 crimes by taking pictures that were done during
7 the course of my work at the Coroner's Office.
8 And the photos I destroyed were ones that I took
9 during the course of my work at the Corner's
10 Office and they were all legitimate photos. And
11 the ones that were -- that I was being accused
12 of committing crimes for were also legitimate
13 photos and I was -- felt threatened and scared
14 that I was going to be accused of more crimes
15 for doing my work at the Coroner's Office that
16 was legitimate.

17 Q. And it was at that point in time, I
18 take it, at the time that you destroyed the film
19 and the negatives to which we've been referring
20 that you were aware that a search warrant had
21 been executed at the Condon studio, right?

22 A. Yeah. I think this was after.

23 Q. And you were aware that the
24 accusations stemmed as a result of those prints

1 and negatives that were found at the Condon
2 studio, right?

3 A. Right.

4 Q. Had nothing to do with the ones
5 that were in your possession, right?

6 A. You mean the charges?

7 Q. Right.

8 A. Yeah. Correct. Except for the --
9 was that Melton negative which I still had the
10 negative.

11 Q. Other than that one negative of the
12 one photograph that you took of Mr. Melton's
13 remains none of the other photographs on the
14 film that was not yet developed or the negatives
15 were part of what gave rise to the charges
16 against you, right?

17 A. Correct.

18 Q. And I take it that you understood
19 that the charges that were being brought were
20 only those that stemmed out of the fact that the
21 police found negatives and prints at Mr.
22 Condon's studio that were of individuals that
23 were decedents that had been, at some point in
24 time, official cases at the Hamilton County

1 Morgue; is that a fair statement?

2 MR. BARBIERE: Objection.

3 A. I have to hear it again. I'm
4 sorry.

5 Q. Okay.

6 (Record read by Reporter.)

7 A. No. I mean, I don't believe that's
8 the only reason charges were brought.

9 Q. What other reasons are you of the
10 understanding?

11 MR. PATSFALL: Objection.

12 MR. GILLIGAN: Now or at the time
13 he destroyed it?

14 MR. GANSON: No, I'm talking about
15 at the time he destroyed it.

16 MR. GILLIGAN: Okay.

17 A. I believe there was, I mean, there
18 was reasons to charge me because of the civil
19 case, to put blame on me to take blame off of
20 the county.

21 Q. Doctor, during that period of time,
22 the time that you first came on as a fellow, to
23 the time that your fellowship abruptly ended
24 were you told by Mr. Daly the process by which

1 photographs could be released to the public?

2 A. No.

3 Q. Are you aware of the security
4 system that was in place at the Hamilton County
5 Morgue's Office during your time there?

6 A. I think so, yeah.

7 Q. Would you agree that in order to
8 get into the morgue operating rooms on the first
9 floor level that you would have to access a
10 keypad?

11 A. Yes.

12 Q. Were you also aware that if you
13 went in through the cooler that you would not
14 have to access that security system and you
15 could end up in the same location?

16 A. Yes.

17 Q. Were you aware of cameras that were
18 filming the premises?

19 A. I only knew of the ones filming
20 outside.

21 Q. That's towards the parking area and
22 the door leading in?

23 A. Correct.

24 Q. Okay. There were none that you

1 were aware of on the interior?

2 A. Not that I was aware of.

3 Q. Did you understand the purpose of
4 the locks or the keypads that would lock the
5 doors to the area where the autopsies were
6 performed?

7 A. I mean, I don't know what the
8 reasoning was at the time they were installed.
9 I mean --

10 Q. That was never explained to you?

11 A. No.

12 Q. Okay. Did you become aware that
13 there was a sign-in procedure for individuals
14 observing autopsies at the Hamilton County
15 Morgue's Office while you were there as a
16 fellow?

17 A. I was aware that there was a sheet
18 that people could sign if they were viewing an
19 autopsy but I was also told that the other
20 doctors didn't really use it.

21 Q. Who were you told that by?

22 A. Well, Dr. Pfalzgraf's the one who
23 told me about the sign-in on the sheet and he
24 also told me -- he didn't tell me about the

1 other doctors, he just told me that he usually
2 just doesn't do it.

3 Q. So, in other words, there would be
4 people that would observe autopsies being
5 performed during the official cases of the
6 Hamilton County Morgue that did not necessarily
7 follow the sign-in procedure that was set forth
8 by the Hamilton County Morgue's administration;
9 is that a fair statement?

10 A. Yes.

11 Q. Were you ever informed that members
12 of the general public would not be permitted on
13 to certain areas of the Hamilton County Morgue
14 premises?

15 A. Well, I was told that the general
16 public has to -- is usually limited to that
17 front entrance there, my understanding.

18 Q. And who were you told that by?

19 A. I mean, I don't remember being told
20 that. That was just my observation.

21 Q. So your observation, I take it
22 then, was that in order for members of the
23 general public to access the Hamilton County
24 Morgue's Office that they would have to go

1 through the reception area on the first floor?

2 A. Technically it's the second floor,
3 but yes.

4 Q. Okay. I'll refer to that second,
5 bottom floor where the morgue autopsy rooms are
6 as the basement area.

7 A. Okay.

8 Q. First floor and -- so when you
9 referred to as the third floor previously the
10 crime lab was that your reference to using the
11 bottom floor as the main and the main entrance
12 as the first floor, really the second floor?

13 A. Yeah. Then using your definition
14 it would be the second floor.

15 Q. And that second floor is, as I
16 understand it, where the crime lab was?

17 A. Yes.

18 Q. And you were in that crime lab?

19 A. Yes, I've been in the crime lab.

20 Q. And there's a keypad to that crime
21 lab, right?

22 A. Actually there's a key to the
23 elevator to get access to that level.

24 Q. Not accessible by the general

1 public in any way, right?

2 A. Correct.

3 Q. Okay. And when you were up in that
4 crime lab you never observed a darkroom or
5 photographic developing equipment in the coroner
6 of that crime lab?

7 A. No.

8 Q. At the period of time that you were
9 a fellow at the Hamilton County Morgue's Office
10 did you ever observe any member of the general
11 public accessing any of the official records of
12 the Hamilton County Morgue?

13 A. No.

14 Q. Were you ever asked by any member
15 of the general public to access any of the
16 official records of the Hamilton County Morgue?

17 A. No.

18 Q. Other than Mr. Condon having the
19 opportunity to view these official photographs
20 that you took in the course and scope of your
21 fellowship at the Hamilton County Morgue was
22 there anybody else that had an opportunity to
23 view those same negatives and prints besides Mr.
24 Condon?

1 A. No.

2 Q. Did, in fact, Mr. Condon have an
3 opportunity to observe the photograph that you
4 took of Mr. Melton --

5 A. Yes.

6 Q. -- that you printed?

7 A. Yes.

8 Q. Okay. And as I understand it from
9 your previous testimony you left the print but
10 you're not sure if you left the negative at Mr.
11 Condon's studio at the time that you left
12 following printing of that negative?

13 A. Correct.

14 Q. Okay. And as far as access by Mr.
15 Condon to that print that you left there you
16 have no knowledge as to what he did or did not
17 do with that print? Is that a fair statement?

18 A. Yeah. I don't know.

19 Q. And when you left that print there
20 the only person that would have custody and
21 control over that print that you left at Mr.
22 Condon's studio was Mr. Condon?

23 A. Yes.

24 Q. And there were no restrictions on

1 his use by you as to his use of that photograph
2 that you left in his studio on that occasion
3 with respect to Mr. Melton?

4 A. No. I never gave him -- I never
5 told him any restriction.

6 Q. Were you aware, prior to the
7 printing of that negative of Mr. Melton, of the
8 project that Mr. Condon was undertaking in
9 connection with the Morgue's Office with regard
10 to his life and death art project?

11 MR. GILLIGAN: Object.

12 MR. BARBIERE: Objection.

13 MR. GILLIGAN: No testimony to
14 that.

15 A. Yeah. I mean, I think I did
16 testify in the previous deposition about, you
17 know, knowing about his idea for a project --

18 Q. Now as --

19 A. -- at the time.

20 MR. GILLIGAN: That's not what the
21 question was and I move to strike your answer.
22 I think you ought to listen to the entire
23 question if you're going to give an answer like
24 that. That sounds like an unequivocal yes.

1 Q. Doctor --

2 MR. GILLIGAN: So I move to strike.

3 Q. -- before you printed the negative
4 of Mr. Melton and left that print in Mr.
5 Condon's studio for whatever, I think you said
6 toning purposes, right --

7 A. Right.

8 Q. All right -- were you aware of a
9 project in which Mr. Condon was engaged for art
10 purposes?

11 A. Yes.

12 MR. BARBIERE: Objection.

13 Q. And what was that project? What
14 was your understanding of that project?

15 MR. BARBIERE: Objection.

16 MR. GILLIGAN: Object.

17 A. Again, it was my understanding,
18 well, it was interest in this project that he
19 had, you know, previously talked about with this
20 so-called life cycle thing and that he was
21 working on the video and at the same time he was
22 going to try and do this project.

23 Q. Okay. And the video to which you
24 refer is the video of an autopsy to update the

110

1 previous autopsy video that was prepared by the
2 Hamilton County Morgue's Office for teaching
3 purposes; is that a fair statement?

4 MR. BARBIERE: Objection.

5 A. Yes.

6 Q. Okay. As I understand it you had
7 absolutely no idea or knowledge of him using
8 props or otherwise manipulating bodies or
9 photographs, prints of photographs, negatives of
10 photographs in the context of this life cycle
11 art project that he was engaged in prior to
12 leaving that print of Mr. Melton at his studio;
13 is that a fair statement?

14 MR. GILLIGAN: Object to the form
15 of the question. Go ahead.

16 A. No. It's not. I knew in September
17 I'd seen a print with a ladder so I had seen one
18 print with an object next to a body prior to
19 that.

20 Q. I'm sorry?

21 A. Prior to developing the Melton
22 photograph.

23 Q. Was it your understanding that that
24 print that you saw with a ladder in September of

1 2000 was taken by Mr. Condon?

2 A. Yes.

3 Q. Was it your understanding it was
4 taken by Mr. Condon at the Hamilton County
5 Morgue?

6 A. Yes.

7 Q. Was that reported to Dr. Pfalzgraf?

8 A. No.

9 Q. Was it reported to Dr. Utz?

10 A. No.

11 Q. Was it reported to Dr. Parrott?

12 A. No.

13 Q. Was it reported to Mr. Daly?

14 A. No.

15 Q. Were you ever informed that any of
16 those four individuals as well as Ronda Gros was
17 aware that that kind of a photograph was being
18 taken by Mr. Condon?

19 MR. BARBIERE: Objection.

20 A. Only that last day he was there in
21 January.

22 MR. GILLIGAN: And you're not
23 answering that as to the whole litany of all
24 those people, correct, so we're clear on what

1 the record is?

2 A. Yeah.

3 MR. GILLIGAN: Go ahead. Sorry to
4 interrupt. But that's the problem I have with
5 the whole litany of people. And I know the
6 testimony, I think you do as well, that he's
7 talking about but it wasn't as to five different
8 people.

9 Q. Prior to the print being made at
10 Mr. Condon's studio of Mr. Melton by you did any
11 of those people know, based upon your firsthand
12 knowledge, as to what Mr. Melton -- Mr. Condon
13 was doing in the context of this prop being used
14 in the photograph that you saw?

15 MR. BARBIERE: Objection.

16 A. My firsthand knowledge, I don't
17 know that they knew.

18 Q. Are you aware of whether or not Mr.
19 Condon was given express permission to be in
20 possession of official photographs of official
21 cases that passed through the Hamilton County
22 Morgue's Office?

23 A. I don't know.

24 Q. Did anybody other than you have Mr.

1 Condon or utilize Mr. Condon's studio to develop
2 photographs that they took in the context of
3 their official business of -- in the course and
4 scope of their practice at the Hamilton County
5 Morgue such as Dr. Pfalzgraf?

6 A. Not that I'm aware.

7 Q. Dr. Utz?

8 A. Not that I'm aware.

9 Q. Dr. Parrott?

10 A. Not that I'm aware.

11 Q. Mr. Daly?

12 A. Not that I'm aware.

13 Q. You're the only one that was --
14 that you're aware of that actually developed
15 film that you took of official cases at Mr.
16 Condon's studio; is that a fair statement?

17 A. Yes.

18 Q. Okay. How did you access Mr.
19 Condon's studio?

20 A. I would, you know, I would call him
21 and if he was there or we'd plan to meet at a
22 certain day and he would let me in.

23 Q. So you didn't have a key?

24 A. No.

1 Q. And you wouldn't -- would never be
2 there unless Mr. Condon was there, I take it?

3 A. Correct.

4 Q. Letting you in, I mean?

5 A. Yeah.

6 Q. Okay. Would he stay with you the
7 entire time that you were there?

8 A. Yeah. I don't think I was ever
9 there alone.

10 Q. Did you ever leave official prints
11 or negatives of official cases of the Hamilton
12 County Morgue prior to leaving the Mr. Melton
13 photograph at Mr. Condon's studio?

14 A. I don't think so.

15 Q. Is that the first occasion then?

16 A. It seems -- my best recollection is
17 that it's the first time I made a print there
18 but I don't -- again, I don't remember for sure.

19 Q. Did you make any other prints of
20 any other official photographs taken by you in
21 the course and scope of your practice as a
22 fellow of the Hamilton County Morgue besides the
23 one Melton photograph?

24 A. I made a print of, I think it was,

1 Jeffrey Bowles or Bowles, the scene photograph
2 from that case.

3 Q. Was that at Mr. Condon's studio --

4 A. Yes.

5 Q. -- as well?

6 A. Yeah.

7 Q. Did you leave that print at Mr.
8 Condon's studio as well?

9 A. Yes.

10 Q. And that was one of the prints that
11 was discovered by the Cincinnati Police in their
12 search?

13 A. Yes.

14 Q. Do you know if anybody else besides
15 you accessed and utilized Mr. Condon's equipment
16 for purposes of developing film of photographs
17 taken?

18 A. I don't know.

19 Q. Was there ever anybody else besides
20 you and Mr. Condon present at the time that you
21 were there that had access to Mr. Condon's
22 developing equipment at the studio?

23 A. Not that I remember.

24 Q. So it's always just the two of you?

1 A. Yeah. I mean, I had been in his
2 studio before when I think his wife was there.
3 But I wasn't developing prints at the time.

4 Q. During that occasion -- is it one
5 occasion or more than one occasion where Mr.
6 Condon's current wife was there?

7 A. I don't remember.

8 Q. Were the prints that you took, that
9 you had developed off of your negatives,
10 observable? I mean, you described, when you
11 were talking to Mr. Gilligan or answering his
12 questions, that they would be left in an open
13 area for drying purposes; is that a fair
14 statement?

15 A. Yes.

16 Q. Okay. Were they readily viewable
17 by individuals that would have been passing
18 through Mr. Condon's studio in that area?

19 A. Well, the studio was quite large.
20 I mean, I don't know where he left them
21 ultimately to dry. But I would imagine that he
22 wouldn't leave them out just for anyone to see
23 as they walked by during the course of his
24 commercial photography.

1 Q. But you don't know that one way or
2 the other, I take it?

3 A. No, I don't.

4 Q. When you left the Melton photograph
5 print at Mr. Condon's studio was it in a place
6 where it was readily accessible and viewable by
7 others that would visit Mr. Condon's studio?

8 A. You know, when I left I don't
9 remember exactly which part of the studio it was
10 in. But I think it was close to his darkroom
11 area, and his main area where he shoots his
12 commercial work was on the other side of the
13 studio.

14 Q. How big is this area?

15 A. I don't know exactly. Maybe 50 or
16 70 feet.

17 Q. From one end?

18 A. Yeah. Maybe a hundred feet.

19 Q. And what's the width?

20 A. Fifty.

21 Q. Is there any --

22 MR. GILLIGAN: Excuse me. Are you
23 finished answering?

24 Q. I think he said 50.

1 A. Fifty feet. I mean, it's just a
2 rough guess.

3 Q. I understand. I understand. Are
4 there any obstructions, separators, anything
5 that would prevent ready view by anybody that's
6 located in that area from one area to the other?

7 A. Well, by the size of the picture it
8 would be hard to see across the room. But there
9 were no partitions, no.

10 Q. Okay. Did you take any steps to
11 secure or otherwise conceal from view of the
12 public the photograph that you printed of Mr.
13 Melton that you took in the official course and
14 scope of your practice as a fellow at the
15 Hamilton County Morgue when you left it at Mr.
16 Condon's studio?

17 A. Well, I left it in his studio so --

18 Q. Did you do anything other than
19 leaving it there? I mean, did you cover it?
20 Did you place it in an area where people would
21 not necessarily view it?

22 A. I personally didn't, no.

23 Q. I'm going to hand you what's been
24 previously marked as Plaintiff's Exhibit 1, 2

1 and 3. By agreement of all counsel these are
2 photographs that have been kept and will
3 continue to be kept under seal. Could you
4 identify any of those three photographs, please?

5 A. I believe these three are the
6 photographs of Mr. Melton.

7 Q. Okay. Are those the prints that
8 you developed at Mr. Condon's studio --
9 obviously they're photocopies -- but are those
10 photocopies of the prints that you developed of
11 the negative that you took of Mr. Melton or are
12 they prints developed by others that you don't
13 know?

14 A. Well, I would assume they're prints
15 that I developed.

16 Q. Do you recall how many prints you
17 developed of that photograph?

18 A. Again, like I said before, it would
19 be less than five.

20 Q. Okay. So those three may not
21 comprise the entire amount?

22 A. Well, if these were all that was
23 found then they're probably all that there were.

24 MR. GANSON: I believe I'm pretty

1 close to being finished but take a few minute
2 break, please.

3 (Break taken.)

4 Q. Doctor, looking at these
5 photographs, again, as I understand it the
6 equipment that Mr. Condon had at his studio
7 allowed for cropping of the negative so that you
8 could get a print that only had that which you
9 wanted to print. Do you understand what I'm
10 saying?

11 A. Yeah.

12 Q. Do any of the exhibits, Plaintiff's
13 1, 2 or 3, involve that process where there was
14 cropping involved of the negatives so that you
15 were printing a specific aspect of Mr. Melton's
16 body?

17 A. You know, I'm not -- don't know for
18 sure but -- because I did take a picture of his
19 face. But may have, yeah.

20 Q. I mean, my understanding is that
21 you took the picture of Mr. Melton's upper torso
22 and head, right?

23 A. No. I think I took a picture of
24 his, just his head. I mean, when I exposed the

1 part I exposed his torso, if I remember
2 correctly. But I think I just took a picture of
3 his head.

4 Q. Okay. And as I understand it when
5 you look at this, these photographs, these
6 photocopies of the photographs, this Plaintiff's
7 1, 2 and 3, they aren't all the same obviously,
8 right?

9 A. Well, I guess other than they look
10 similar.

11 Q. Well, I understand. But like, for
12 instance, if you look at 1 comparing it to 2 it
13 appears that 1 has a different magnification,
14 for lack of a better word, than 2 would, for
15 instance?

16 A. Not to me.

17 Q. Okay. In other words, you weren't
18 trying to, in those three prints, attempting to
19 focus in on any particular part of the injuries
20 sustained by Mr. Melton as opposed to just
21 printing the negative as the picture was taken;
22 is that a fair statement?

23 A. I mean, I really -- I don't
24 remember. It's hard to see in these photographs

1 exactly what they're of. But I don't remember
2 at the time what I was trying to do.

3 Q. Do you remember at the time what
4 the purpose of what you were trying to depict in
5 those photographs?

6 A. I think it was just the severity of
7 the head trauma.

8 Q. And as I understand it this
9 photograph that you took of Mr. Melton which you
10 developed and then put into a print form, the
11 idea was that you were going to put one of them,
12 one of the prints into the official records of
13 the official file at the Hamilton County
14 Morgue's Office and then keep another one for
15 your teaching file?

16 A. Yes.

17 Q. Is that a fair statement?

18 A. Yes.

19 Q. What was your intention with
20 respect to the negative of that particular
21 photograph?

22 A. I don't remember thinking about it.

23 Q. Okay. Were you ever instructed
24 that all negatives of all official photographs

1 that you took in the official course and scope
2 of your practice as a fellow at the Hamilton
3 County Morgue were to be returned to the
4 Hamilton County Morgue's Office?

5 A. I was never instructed.

6 Q. By anybody at the morgue?

7 A. By anyone, no.

8 Q. Did any official photograph that
9 you took in the official course and scope of
10 your practice as a fellow at the Hamilton County
11 Morgue's Office to your knowledge end up in Mr.
12 Condon's art project?

13 MR. BARBIERE: Objection.

14 MR. GILLIGAN: Object. I don't
15 understand the question.

16 Q. The life cycle art project that
17 we're talking about. And it's important for you
18 to understand subject to these objections.

19 A. No.

20 Q. Not that you're aware of?

21 A. No.

22 Q. Okay. Nothing else. Thank you
23 very much for your time, Doctor. I appreciate
24 it.

1 CROSS-EXAMINATION

2 BY MR. PATSFALL:

3 Q. Doctor, I got a few questions.
4 Steve Patsfall; I represent Thomas Condon. We
5 met a number of times previously?

6 A. Yeah.

7 Q. I'll try and be as quick at this as
8 I can. Now Thomas Condon was your friend by the
9 time that you were developing photos in his
10 studio, correct?

11 A. Yes.

12 Q. And Thomas had been around -- I
13 guess you had known him for about four or five
14 months by that time; fair to say?

15 A. Well, we met in August.

16 Q. Okay. And this hasn't been talked
17 about a lot in the record but he was a
18 professional photographer?

19 A. Correct.

20 Q. He was very good, correct?

21 A. As far as I knew he was good.

22 Q. Okay. He had a lot of clients?

23 A. He appeared very successful.

24 Q. Okay. And he was happy to share

1 his information concerning photography with
2 anybody that was interested, correct?

3 A. Correct.

4 Q. And that would include you as well
5 as several other members of the Coroner's
6 Office, correct?

7 A. Yes.

8 Q. For instance, I think Dr. Utz had a
9 particular interest in becoming a better
10 photographer, correct?

11 A. I think so. Yes.

12 Q. Well, and I think you had touched
13 on this briefly in prior deposition testimony is
14 that when you -- as part of your job you have to
15 take photos and you're encouraged to learn to
16 take photographs better; is that correct?

17 A. Right.

18 Q. All right. And that's what you
19 were really endeavoring to do when you were
20 striking up a friendship with Mr. Condon and
21 using his studio and developing photos at your
22 own house, correct?

23 A. Correct.

24 Q. The particular Melton image that

1 we're talking about here today, and I think
2 we've seen three photos, Thomas Condon never
3 asked you to take that image, did he?

4 A. No.

5 Q. He was not aware that you were
6 taking that image when you took it, correct?

7 A. Correct.

8 Q. All right. He never asked you to
9 develop that photograph, correct?

10 A. Correct.

11 Q. He never asked you to bring it over
12 to his studio, correct?

13 A. Correct.

14 Q. He had no intention and never did
15 use that photograph for any reason, correct?

16 A. Correct.

17 Q. That was your film, correct?

18 A. Correct.

19 Q. And, by the way, how much would a
20 roll of that film cost?

21 A. Maybe five dollars.

22 Q. It was a negligible cost, fair
23 enough?

24 A. Yes.

1 Q. You weren't concerned about being
2 reimbursed by anybody for it, correct?

3 A. Correct.

4 Q. All right. Now there was film,
5 film was developed by the Coroner's Office all
6 the time outside of the Coroner's Office,
7 correct?

8 A. Well, when you say all the time --

9 Q. My understanding, Terry Daly used
10 to often take rolls of film to a developing
11 studio, you know, whatever, a company that does
12 that --

13 A. Yeah.

14 Q. -- to have photos developed?

15 A. Before I came there, yes.

16 Q. Okay.

17 A. And he also had taken mine to, one
18 roll of my film to a -- early on -- to a place
19 also.

20 Q. All right.

21 MR. GILLIGAN: Would you say the
22 name --

23 A. To that Norton Photography, I
24 believe.

1 Q. So it wasn't unusual for the
2 Coroner's Office to have film taken for the
3 Coroner's Office purposes to be developed
4 outside of the Coroner's Office?

5 A. Yeah, because there was no place to
6 develop it at the Coroner's Office.

7 Q. I assume from your testimony that
8 it was your intention to return to Thomas
9 Condon's studio to pick up the photograph --

10 A. Correct.

11 Q. -- photographs, correct?

12 A. Correct.

13 Q. And you, I think in your last
14 deposition, you testified that you took the
15 negative home and left the print at the studio
16 for the purposes of having some more work done
17 on it later and then taking it; is that fair to
18 say?

19 A. Yes.

20 Q. All right. So Thomas Condon never
21 had possession of this negative, correct?

22 A. I don't believe so.

23 Q. And the photographs, final form,
24 you were going to take, you were going to use

1 for your own purposes, correct?

2 A. Correct.

3 Q. Now there's a whole other set of
4 photographs of Melton that haven't been
5 discussed today and they were taken by the
6 investigator, right?

7 A. Yeah. I believe there are.

8 Q. Have you seen those photographs?

9 A. I've seen some photographs, yes.

10 Q. All right. Well, there were a lot
11 more images taken by that person, correct?

12 A. Yeah.

13 Q. And they were far more gruesome
14 than the photograph that you took, correct?

15 A. Well, I wouldn't describe any of
16 them -- I mean, you're asking me --

17 Q. A pathologist is probably not the
18 best person. But they're --

19 A. They're just as graphic.

20 Q. -- they're just as graphic. And do
21 you know who had -- and you probably don't know
22 but I'm just checking -- do you know who took
23 possession of those photographs after the
24 charges were made?

1 A. Who took possession of them? I do
2 know that they were given to Chesley's office
3 and I assume the county prosecutor had them,
4 too.

5 Q. Okay. And getting back to the
6 number of images it's my understanding that the
7 sole image you took of Melton was -- the only
8 reason you took only one image was because you
9 didn't have any more photos left in your roll;
10 is that correct?

11 A. Yeah. Probably would have taken
12 more if I had more.

13 Q. Right. And I think you testified
14 that you didn't really recall what the other
15 images were on that roll?

16 A. Correct.

17 Q. Do you think there were some other
18 images that were of bodies taken at the
19 Coroner's Office?

20 A. Well, there may have been some
21 scene photos.

22 Q. Okay. Fair enough. That's all I
23 have. Thank you very much.

24 MR. BARBIERE: I don't have any

1 questions.

2 RECROSS-EXAMINATION

3 BY MR. GILLIGAN:

4 Q. Just a second. I may have a
5 follow-up question or two in response to the
6 other questions that have just been asked.

7 You had just testified, in answer
8 to one of Mr. Patsfall's questions, that it was
9 customary in your experience for film taken by
10 pathologists, including yourself in the
11 Coroner's Office, to be developed outside of the
12 Coroner's Office premises. Do you remember that
13 testimony?

14 A. Yes.

15 Q. And you said because there was no
16 place to develop film at the Coroner's Office.
17 Did I understand that correctly?

18 A. Yeah. But I was referring to
19 making prints.

20 Q. Okay. Making prints?

21 A. Yeah.

22 Q. And Mr. Ganson had asked you
23 earlier some questions about this darkroom up on
24 the second floor in the crime lab area. Is

1 there any relationship between this alleged
2 room, darkroom and the ability to make prints
3 that you're aware of?

4 A. Well --

5 Q. You know what I'm asking? In other
6 words, are we to assume that if, in fact, a
7 darkroom exists in the crime lab area that,
8 therefore, there was the ability to make prints
9 in the Coroner's Offices?

10 A. Well, just because they said
11 there's a darkroom there doesn't mean that it
12 has equipment, has chemicals, it's ever been
13 used.

14 Q. Do you feel comfortable in your
15 testimony notwithstanding whatever this darkroom
16 is that you're unfamiliar with that there were
17 not facilities to make prints there at the
18 Coroner's Office?

19 A. Yes.

20 Q. Okay. Now is it -- would it be
21 sort of common knowledge that if film is being
22 sent to an independent laboratory, let's say, or
23 film processing studio or place of business for
24 the making of prints that the person or persons

1 who perform that task, that is, to make prints
2 would see what was depicted in the print?

3 A. I would assume so, yes.

4 Q. And I presume anybody that would
5 take a photo presumably saw what was in the
6 photo when the person took it for the most part.
7 That would be normal thought process, right?

8 A. Yes.

9 Q. Okay. And I presume that when you
10 would go to a death scene that that dead body
11 was viewed by many people? That be your
12 customary experience?

13 A. Yes.

14 Q. And would some of those people be
15 unofficial people as well as official, that is,
16 anybody who came upon the scene could have seen
17 that dead body?

18 A. Yeah. If it was in a public place
19 there were a lot of people.

20 Q. And in some instances that would be
21 so?

22 A. Yes.

23 Q. Now do you know how many people
24 viewed the dead body of Mr. Melton prior to the

1 time that body was brought into the morgue?

2 A. No.

3 Q. If it was -- did you understand
4 that the poor gentleman was killed as part of an
5 industrial accident?

6 A. Yes.

7 Q. Would it be your assumption that
8 there were probably co-workers around at the
9 time this individual met his death?

10 A. That's a fair assumption.

11 Q. And would it be a fair assumption
12 that police were called?

13 A. Yeah.

14 Q. Would they see the body
15 customarily?

16 A. Yes.

17 Q. And how about medics, would they be
18 called customarily?

19 A. They sometimes are.

20 Q. And, of course, when they're called
21 they would see the body; is that correct?

22 A. Yes.

23 Q. And the person who took the photos
24 who you identified, she would have seen the

1 body?

2 A. Yes.

3 Q. Now these photos that were taken by
4 the investigator, those photos, as you know it,
5 would have been able to be obtained by any
6 member of the public upon making proper request
7 for them with the Hamilton County Coroner's
8 Office; is that correct?

9 A. Yes.

10 Q. And in this particular instance I
11 think in answer to one of the other gentlemen's
12 questions you indicated that Mr. Chesley's
13 office got possession of these photographs?

14 A. Yes.

15 Q. Were they the official photographs
16 that were taken by the investigator?

17 A. That's my belief, yes.

18 Q. Okay. And do you know whether or
19 not they showed those photos to anyone?

20 A. I believe they showed them to the
21 wife of Mr. Melton.

22 Q. Okay. And do you know the
23 circumstances upon which they showed these
24 official photos to the wife?

1 A. I think it was in the process of
2 trying to get her as a client in a lawsuit.

3 Q. I see. And do you know whether or
4 not Exhibits 1, 2 and 3, the photos or the
5 prints in process of the photo you took of Mr.
6 Melton, were given to Mr. Chesley's office?

7 A. I assume so.

8 Q. Do you know whether Mrs. Melton,
9 the widow, had been shown those photos as well?

10 A. I don't know if she was shown those
11 as well.

12 Q. Now, and you said those photos were
13 also made available to someone else, I believe?

14 A. Just the Prosecutor's Office.

15 Q. Prosecutor's Office. And I presume
16 the jury in the criminal trial saw Exhibits 1, 2
17 and 3, do you know? You were there.

18 A. You know, I don't -- I never sat
19 through them when they were showing each
20 photograph so I don't recall.

21 Q. You don't recall. Okay. Now there
22 has been a lot of questions regarding these
23 prints in process, I'll call them, the prints
24 like Exhibit 1, 2 and 3. Did you consider those

1 prints to be part of the official record of the
2 Hamilton County Morgue at the Coroner's Office?

3 A. Can repeat that question?

4 Q. Yes. It was probably not very well
5 articulated. Exhibits 1, 2 and 3, do you
6 believe that those would depict the prints at
7 the time you left Condon's studio as you
8 described earlier in your testimony?

9 A. Yeah.

10 Q. Okay. Did you believe when you
11 left Condon's studio as you sit here today that
12 Exhibit 1, 2 and 3 were left there?

13 A. Yes.

14 Q. In that same condition that we just
15 saw?

16 A. Well, I can't tell by the --

17 Q. To the best of your recollection?

18 A. They look like the same
19 photographs.

20 Q. Did you believe those prints, when
21 you left Condon's office depicted Exhibits 1, 2
22 and 3, were part of the official records of the
23 Hamilton County Coroner's Office?

24 A. I don't know if I -- I don't think

1 I could clarify what the definition of is
2 official but I believe they were taken during
3 the official course of the -- my duties there
4 and I do believe that I was going to put them,
5 at least one photograph, into the file of Mr.
6 Melton. So at the time I believe that at least
7 that these photographs were for the file and for
8 my teaching file and that's all.

9 Q. All right. So at least one of
10 Exhibits 1, 2 and 3, it was your intention at
11 the time you left Condon's studio that that
12 would be made into a final print and would be
13 included as part of the records of the Hamilton
14 County Coroner's Office for the case of Perry
15 Melton; is that right?

16 A. Correct.

17 Q. All right. And you never had the
18 opportunity to do that because the search and
19 seizure took place in the interim; is that how I
20 understand your testimony?

21 A. Yes.

22 Q. Okay. You had no intention, when
23 you left Condon's studio, that any one of
24 Exhibit 1, 2 or 3 or any final form would become

1 a part of Condon's art project, did you?

2 A. No.

3 Q. And you didn't intend that Exhibit
4 1, 2 or 3 or any final form would be used for
5 commercial purposes in any way, shape or form by
6 Mr. Condon, did you?

7 A. No.

8 Q. Did you ever give him, directly or
9 indirectly, any permission to Exhibit 1, 2 or 3,
10 those exhibits, to any member of the general
11 public?

12 A. No.

13 Q. Would you feel that it was improper
14 if you gave such permission to Condon at that
15 time?

16 A. To exhibit --

17 Q. Exhibit those photos to the general
18 public?

19 A. Yeah, I don't think it would be
20 proper to exhibit those photos.

21 Q. Why?

22 A. Well, because I'm the one who took
23 them and they were taken for the purposes I've
24 already told you, not for the purposes of

1 exhibition.

2 Q. And did you have a belief that Mr.
3 Condon also understood that?

4 A. Yes.

5 Q. Did you have specific discussions
6 with him about that or did you have this belief
7 for some other reason?

8 A. I assumed that that would be the
9 case.

10 Q. Why?

11 A. Because I had no -- I mean, I never
12 talked about exhibiting these photos and it
13 wasn't a -- I mean, I don't know how best --

14 Q. You think common sense would have
15 dictated that to Condon?

16 A. Yes.

17 Q. As a matter of fact you have no
18 evidence whatsoever that Mr. Condon violated
19 your confidence in him not exhibiting these
20 photos to the general public; isn't that
21 correct?

22 A. Correct.

23 Q. And as best of your knowledge none
24 of these photos were ever exhibited to anyone

1 other than Mr. Condon, correct?

2 A. Correct.

3 Q. Up until the search and seizure?

4 A. Correct.

5 Q. And I just want to make this clear,
6 I think it is, with reference to this art
7 project you are not aware of any -- of Dr.
8 Pfalzgraf, Terry Daly, Ronda Gros, Dr. Schultz,
9 Dr. Utz, Dr. Parrott or anybody connected with
10 the Hamilton County Coroner's Office ever
11 approving Condon to take photos of bodies at the
12 Hamilton County Morgue for purposes of being
13 included in this art project; isn't that
14 correct?

15 MR. PATSFALL: I'm going to object.
16 I think the testimony has been contradicted. Go
17 ahead and answer.

18 A. Can you repeat the question?

19 (Record read by Reporter.)

20 A. I don't think that's entirely
21 correct.

22 Q. Well, what is your version?

23 MR. BARBIERE: I'm going to object.
24 It's hearsay.

1 A. Again, I mean, are we referring to
2 these, to any photographs he's taken?

3 Q. That's my general question, yes.

4 A. And my understanding was that he
5 had discussed this project at these meetings
6 before I was working there and that in those
7 discussions he at least was given some sort of
8 go ahead to show them what he wanted to do. And
9 so that would be my --

10 Q. You've already testified about
11 that. I guess my point was that he was given
12 permission, that photographs of bodies he took
13 at the Hamilton County Morgue would actually be
14 permitted to be used in an art project that was
15 for commercial purposes?

16 A. Well, I don't know what purposes
17 were discussed. I have no idea.

18 Q. And you were asked or you testified
19 about the photo that you observed in September.
20 And I don't know that you had mentioned who the
21 -- the identity of the body. Do you know who
22 the identity of the body was, the one where the
23 ladder was present?

24 A. Yeah, I think I did testify to

1 that. It was Brady.

2 Q. Brady. And I believe you indicated
3 that at the time you saw the Brady photograph in
4 September -- strike that. At the time you saw
5 the Brady photograph in September did you ask
6 Condon whether or not that photo was taken for
7 his art project?

8 A. I don't remember at the moment.

9 Q. Okay. And I think it was your
10 testimony, that you're not aware that that
11 photograph was shown to any other person at the
12 Hamilton County Coroner's Office; is that
13 correct?

14 A. That specific photograph, correct.

15 Q. And you did make reference to the
16 fact that someone connected with the Hamilton
17 County Coroner's Office became aware of a
18 propped photo right before the search and
19 seizure occurred by the police some time in
20 January of 2001; is that right?

21 A. Yes.

22 Q. And that person was only Dr. Utz;
23 is that correct?

24 A. Yes.

1 Q. So that that, when you made that
2 comment when we were talking about the theys,
3 you were only talking about Dr. Utz and
4 specifically not Dr. Pfalzgraf, Dr. Schultz,
5 Ronda Lindemann, Terry Daly or Dr. Parrott; is
6 that correct?

7 MR. PATSFALL: Object. It's not
8 been testified to.

9 A. In reference to that specific
10 incidence, yes.

11 Q. That's all I have. Thank you.

12 RECROSS-EXAMINATION

13 BY MR. GANSON:

14 Q. I just have a few more questions
15 literally. The question was raised about film
16 being taken off premises for developing. You
17 recall that line of questioning?

18 A. Yes.

19 Q. That was only by Mr. Daly, correct?

20 A. I believe Dr. Utz had taken film in
21 the past also.

22 Q. Is that your understanding or are
23 you aware that he took film off premises to be
24 developed at another location such as Norton's?

1 A. Well, he told me once he took film
2 at just the grocery store, something, to be
3 developed.

4 Q. Are you aware of whether prints or
5 slides were being developed?

6 A. Prints. I mean, that's what was my
7 understanding.

8 Q. Did you know that there were slides
9 that were being developed at the time by the
10 pathologist for -- I should say for the
11 pathologists?

12 A. Yeah. The incidents that I'm
13 referring to are times when the cameras didn't
14 work and they used alternate cameras.

15 Q. The digital cameras didn't work?

16 A. The slide -- they used to take
17 slide cameras to scenes, I think. Those
18 incidences or when the digital ones didn't work
19 or they didn't have a camera with them.

20 Q. Mr. Gilligan asked you about others
21 seeing Mr. Melton's remains. When Mr. Melton's
22 remains were brought to the morgue the remains
23 were placed in the cooler, right?

24 A. Yes.

1 Q. And at that point in time only
2 certain individuals would have access to Mr.
3 Melton's remains, and those individuals would
4 have been associated with or somehow connected
5 with Hamilton County Morgue's Office, correct?

6 A. Yes.

7 Q. At that point in time it was not
8 open to public view, correct?

9 A. Correct. Yes.

10 Q. And Mr. Gilligan asked you about
11 your prints that we've discussed, Plaintiff's
12 number 1, 2 and 3. They were never made
13 official part -- strike that.

14 Those prints that are exhibited by
15 Plaintiff's number 1, 2 and 3 were never made a
16 part of the official records or file of the
17 Hamilton County Morgue regarding Mr. Melton; is
18 that a fair statement?

19 A. Yes.

20 Q. And obviously that would also apply
21 to the negative because it was destroyed, right?

22 A. Yes.

23 Q. So if one were to go to the
24 Hamilton County Morgue and make a proper request

1 for the official file of Mr. Melton you would
2 not find a copy of your print or negative of
3 that particular photograph, correct?

4 A. Correct.

5 Q. And it's also my understanding from
6 your testimony that the only way a member of the
7 public, as noted by Mr. Gilligan in his
8 questioning of you, to secure a copy of that
9 file including the photographs of the official
10 records of the Hamilton County Morgue's Office
11 was that there would have to be a proper request
12 made, right?

13 A. Well, I don't know the procedure.
14 I was never told that.

15 Q. And that was exactly my point. My
16 understanding from your previous testimony is
17 that you really had no idea at any point in time
18 during the time that you first started with the
19 Hamilton County Morgue's Office probably up
20 through this litigation as to what the proper
21 procedure that the public needed to follow in
22 order to get release of official files and
23 records of the Hamilton County Morgue's Office,
24 right?

1 A. Correct.

2 Q. And then the final question that I
3 have is we've heard a lot about -- questions
4 about assumptions about what Mr. Condon would or
5 would not do with those photographs, those
6 prints, those negatives or whatever that you had
7 left at his studio. You remember that line of
8 questioning?

9 A. Yes.

10 Q. And I understood you to say that
11 you never gave him any specific instructions as
12 to the security and integrity of those
13 photographs in the context of that these are
14 official records and they need to be treated as
15 official records, correct?

16 A. Correct.

17 Q. And you're not aware of what Mr.
18 Daly may have told Norton's Photography as far
19 as the official nature of the photographs that
20 he was -- or the slides or the negatives that he
21 was bringing over to it for purposes of
22 development, right?

23 A. Correct.

24 Q. You were never instructed as far as

1 any kind of protocol as to what to tell an
2 individual who had control, custody and
3 possession of the negatives and prints that you
4 took of official cases involving Hamilton County
5 Morgue by anybody associated with the Hamilton
6 County Morgue and in the position of authority
7 over you; is that correct?

8 A. Correct.

9 Q. Okay. And, in fact, in that
10 context you had no control over Mr. Condon and
11 what he did or did not do with those prints and
12 that -- those negatives that you left of the
13 official cases upon which you took photographs
14 of cases that went through the Hamilton County
15 Morgue's Office; is that correct?

16 A. I'm sorry?

17 Q. You had no control over Mr.
18 Condon's use or handling or otherwise with
19 respect to negatives or prints that you took to
20 his studio and left there of cases where you
21 took photographs of official cases in the
22 Hamilton County Morgue's Office, right?

23 A. Correct.

24 Q. Okay. So you have no idea what he

150

1 may or may not have done in your absence as far
2 as those negatives or prints are concerned,
3 right?

4 A. Correct.

5 Q. Thank you. I have nothing further.

6 MR. BARBIERE: No questions.

7 MR. WHITAKER: Signature.

1 C E R T I F I C A T E
2 STATE OF OHIO
3 : SS
4 COUNTY OF HAMILTON
5 I, Valerie Jones Conn, the undersigned,
6 a duly qualified notary public within and for
7 the State of Ohio, do hereby certify that
8 JONATHAN TOBIAS, M.D. was by me first duly sworn
9 to depose the truth and nothing but the truth;
10 foregoing is the deposition given at said time
11 and place by said witness; deposition was taken
12 pursuant to stipulations hereinbefore set forth;
13 deposition was taken by me in stenotypy and
14 transcribed by me by means of computer;
15 deposition was submitted to the witness for
16 examination and signature; I am neither a
17 relative of any of the parties or any of their
18 counsel; I am not, nor is the court reporting
19 firm with which I am affiliated, under a
20 contract as defined in Civil Rule 28(D) and have
21 no financial interest in the result of this
22 action.
23 IN WITNESS WHEREOF, I have hereunto set
24 my hand and official seal of office at
Cincinnati, Ohio, this ____ day of _____, 2004.

My commission expires Valerie Jones Conn, RPR
September 4, 2007 Notary Public - State of Ohio
